

# 2009 JAMIS CAPRI 2.0

Sugar Lavender

## UPGRADES FROM 2008

- Hi-rise, long-quilled stem with alloy cap
- Smaller based comfort saddle

## FEATURES/BENEFITS

- Our lightweight & durable 7005 aluminum Capri frame is easier to pedal than steel
- Capri's swooping frame design has a purpose other than great looks: with 20" wheels this bike offers a low standover and low center of gravity for stable, secure riding and control
- We've even increased the wheelbase length over our 20" mountain bike to offer even greater stability, security and comfort
- Those attractively painted fenders keep the rain & mud off the bike & the rider and look cute to boot
- A seven-speed drivetrain is enough for any girl to learn how to shift and master. It's also enough gearing to get around the neighborhood comfortably
- Which is why we spec just one single chainring in front: to simplify shifting. We top it off with a full-wrap chainguard to keep the chain in place and clothes & legs out of the chain's way
- Capri's extra-plush, broad-based saddle features a suede-like brushed vinyl top that's grippy and keeps young riders from sliding around unsafely on the saddle top
- Our soft and comfortable foam grips feature a smooth vinyl cover that is embossed and stitched to match the saddle & decal theme
- SRAM's MRX twist shifters and Shimano rear derailleur are kid friendly & easy to shift
- A 60 degree hi-rise stem with 90mm extension and 150mm extra-long quill offers plenty of up or down adjustment range to put those up-swept riser bars in just the right position
- Our pedals offer a non-slip insert that keeps feet and shoes in full contact even when wet for safe & secure pedaling
- Those wide Brooklyn Speedway tires offer a large contact patch for greater stability, with a smooth tread surface for easy rolling, and hold plenty of air volume for a more comfortable ride
- Every Capri comes equipped with a kickstand so parking in the driveway or sidewalk doesn't result in gouges or scratches and an unhappy new bike owner

## SPECIFICATIONS

Frame	Lightweight aluminum comfort frame design with full-length chainguard, fenders and kickstand
Fork	Comfort unicrown, oversized, with radiused blades
Headset	Standard threaded type, 1 1/8"
Wheels	Alloy 36H rims with small flange nutted hubs and 14G nickel-plated spokes
Tires	Brooklyn Speedway, 20 x 2.125", blackwall
Derailleurs	Shimano TX30 short cage rear derailleur with protective guard
Shiftlevers	SRAM MRX Grip Shift, 6-speed
Chain	KMC HP20
Cassette	Indexed, 6-speed, 14-28T
Crankset	Forged alloy crank, 152mm, with 38T chainring
BB Set	Cotterless type, 3SB axle 68 x 124.5mm (35 - 52 - 37.5)
