

# 2010 TAXI

## UPGRADES/CHANGES FROM 2009

It's the most durable cruiser in the planet and the choice of the world's best ocean-front rental fleets

Kiwi Green

Sunset Red

Twilight Blue

Gloss Black (Step-Thru)

## FEATURES/BENEFITS

The Taxi's lightweight & durable 7005 aluminum is easier to pedal than steel, and offers corrosion and rust-resistant attributes in coastal salt water conditions.

Our sloping double diamond frame design offers the lightest possible frame weight, with 6 sizes assuring the best possible customer fit for the most comfortable & secure ride.

The large diameter single-loop stays with trailing dropout are a Boss signature trademark, having been part of the original Boss design back in 1980.

The near constant diameter stays look great and offer a longer wheelbase for a more stable & comfortable ride.

Alex X303 box-section rims are reliably true & durable and are laced on the Taxi with 36 heavy-duty 105 gauge stainless steel spokes.

Taxi offers a plethora of rust-proof, corrosion-resistant alloy parts -- alloy micro-adjust seat post, alloy stem, alloy crank, alloy chainring, alloy hubs, alloy rims and alloy kickstand.

Our Taxi saddle is as durable as it gets -- an extra-thick 3 mil cover that resists puncturing, a flat top that won't pool water, and box-section rails that won't bend -- with double-loop springs for extra shock-absorbing comfort and convenient bag loops that make attaching a rear bag a cinch.

Our Jamis Cruiser bar is the most sensibly designed in the business -- just the right width, sweep & rise, for a perfectly comfortable, upright ride -- and is fully padded on the Taxi.

The pedals on Taxi offer a slip-resistant, shock-absorbing insert for a more comfortable & secure ride (even barefooted!), with axle bushings instead of bearings to resist salt-water oxidation with axle bushings instead of bearings to resist salt-water oxidation and repeated rental fleet power-washings.

Shimano's coaster brake is the benchmark in foot-powered stopping.

The Taxi's chromoly quick release is much more durable under repeated use (as is required in rental fleets when saddle height is changed for changing clients) than alloy cam type QR's.

Other Taxi unique features include thorn-proof tubes, sealed cartridge BB, rubber headset cover, and a galvanized rust-buster chain -- all making Taxi the bomb-proof bike of choice for resort rental fleets or factories that utilize bicycles to move personnel and product.

## SPECIFICATIONS

Frame	Diamond frame design with 7005 aluminum oversized tubing, sloping top tube design, water bottle bosses, alloy kickstand, and painted steel chainguard (kids models with steel frames)
Fork	Oversized hi-tensile steel tubular unicrown with leading dropout and fender boss
Headset	Sealed, 1 1/8", with Ritchey rubber headset cover
Wheels	Alex X303 36H alloy rims with alloy double-sealed front & Shimano CB rear hubs, 12 gauge stainless steel spokes
Tires	Jamis Cruise-control comfort tread, 26x2.125" blackwall
Derailleurs	N/A
Shiftlevers	N/A
Chain	KMC Z51RB, rustless
Cassette	Shimano 18T
Crankset	Forged alloy crank, 170mm, with 44T alloy compact disc chainring
BB Set	Sealed cartridge BB with alloy cups & sheath, 68 x 116mm
Pedals	Cruiser platform with heat-treated axles and rustless bushings
Brakeset	Shimano coaster brake
Handlebar	Jamis Cruise-control comfort bar
Stem	Alloy hi-rise, 150mm quill, 100mm extension, with removable 2-bolt cap
Grips	Spectro comfort kraton with full length, extra-thick, foam bar pads
Seat Post	Alloy pillar style, 26.8 x 300mm, with plugged top Welded collar with chromoly QR
Saddle	T design with memory foam, extra-thick vinyl cover, heavy-duty strut rails & double-loop springs with bag loops
Sizes	Unisex/Step-Thru Style: M (17") w/ 26" wheels, S (15") w/ 24" wheels, Standard Style: S (17"), M (19"), L (21") all 26" wheels Kids: S (10") w/ 20" wheels & XS (8") with 16" wheels
Color	Twilight Blue, Gloss Black, Kiwi Green or Sunset Red
