Vittoria Adventure Touring tires

## REASONS TO UPGRADE FROM CITIZEN 1

Frame with hydroformed top and down tube and replaceable derailleur hanger

RST Neon Pro Suspension fork with MCU/coil spring and external preload adjustment

Puncture resistant tire casings

Better wheelset with double wall CNC rims and cassette freehub

Shimano 24-speed EF50 EZ Fire Plus Shifter/Brake Levers & Acera M360 rear derailleur

Shimano M191 crankset with chainguard

Sealed Cartridge BB

Memory Foam Saddle

## FEATURES/BENEFITS

Large diameter 700c road bike wheels roll faster & more predictably at speed and roll over bumps & potholes more comfortably than smaller diameter 26" wheels

Citizen 2's lightweight & durable aluminum frame offers hydroformed top and down tubes & bullet style cable guides for good looks and increased strength

A sloping double diamond frame design in 7 sizes assures best possible customer fit for more comfort, better handling, increased safety

RST's Neon Pro suspension fork offers over 2" (60mm)" of coil sprung/MCU travel with external preload adjustment, alloy crown and sliders

Smooth-rolling, Vittoria Adventure Touring 700 x 38c tires hold more air volume & are more comfortable to ride than smaller width 23 - 28C road tires. These tires also feature a 3M reflective stripe for enhanced visibility in the dark and a puncture-resistant casing that helps protect tubes from flats

Weinmann's ZAC1800 double wall rims are stronger, lighter and longer lasting than standard single wall rims

Shimano's EZ-Fire Plus shifters and Acera rear derailleur shift intuitively, smoothly and reliably

The Shimano 48/38/28 crankset & 11-32 cassette provide a huge range of 24-speeds for smooth and easy pedaling on any terrain

The sealed cartridge bottom bracket & sealed headset improve performance and reduce maintenance

Our super plush saddle features memory foam padding for optimum support with maximum comfort. The slip-resistant suede-type top prevents sliding and the burnished side panels reduce leg friction while pedaling. Elastomer springs help soak up high resonant road vibrations. Offered in gender specific sizes.

Telescoping suspension seat post with 1" of coil-sprung travel smooths out the road and trail

A long quilled, angle-adjustable stem and 3" rise handlebar offer a comfortable, upright ride position that's easy on neck & wrists

TPE slip-resistant inserts on the Citizen's pedals damp road vibration and provide a more secure connection between foot and pedal
