

# 2009 JAMIS CODA ELITE

## UPGRADES FROM 2008

NVO easy-adjust stem-height system

Ritchey Aheadset

## REASONS TO UPGRADE FROM CODA COMP

Avid BB7 disc brakes

Shimano/Mavic wheelset

Crank Brothers Smarty clipless pedals

Shimano Deore XT derailleur

Shimano SL-R660 flat bat shifters

Outback Gold/Gold

## FEATURES/BENEFITS

Our Coda series Reynolds 520 double-butted chromoly frame rides smoother & more comfortably than comparably priced aluminum framed bikes thanks to the natural shock damping properties of steel, with plenty of fender & rack mounts for full accessorizing

The carbon fiber fork on the Coda Elite has been designed specifically to manage the brake torque generated by the disc brake at the fork tips.

27-speed trigger shifting drivetrain with 50/39/30 FSA Vero crankset, Shimano SL-660 shifter & Deore XT derailleur, and 11-32 Shimano cassette offers a much larger gear range, with much lower gearing, for easier hill climbing, than standard or compact double chain ring road bikes

Avid's BB7 disc brakes offer powerful stopping with light action at the lever, and Avid's proprietary Caliper Positioning system aligns pads with rotor easily & perfectly

The Mavic/Shimano wheel set is light, but tough, for on or off-road durability, with excellent load carrying capability & handling

Vittoria Zaffiro 28c tires hold just enough air volume to make for a comfortable & stable ride, yet are narrow enough to roll almost as fast as 23c road bike tires

Crank Brother's Smarty clipless pedals feature the same lightweight, easy-to-clip-in 4-sided entry system as their famous Egg Beater & Candy pedals

Selle San Marco's Ischia saddle rides comfortably & efficiently, with classic Italian styling

NVO components adjustable-height stem system is much lighter than angle adjustable stems and adjusts handlebar height more easily & quickly too

Coda Elite's telescoping suspension seat post offers 45mm of bump-eating suspension travel, with an MDU elastomer damping mechanism that is lighter and smoother than coil-spring types

WTB's Street Smart kraton rubber grips offer reflective end caps for enhanced night riding visibility
