

2009 JAMIS DRAGON PRO

UPGRADES FROM 2008

New lighter, stiffer rear brake brace
 Kenda Karma 2.1, 120tpi folding tires
 Custom WTB Silverado saddle
 Ritchey Comp Logic headset & cockpit parts

REASONS TO UPGRADE FROM DRAGON COMP

Reynolds 853 frameset
 Fox 32F 100RL suspension fork with lock-out
 Full Shimano Deore XT drivetrain
 Avid Juicy 3 hydraulic brakes
 Mavic XM317 / Deore / Kenda Karma wheelset
 Crank Bros Candy C clipless pedals
 WTB Silverado saddle

Ghost Blue/Pearl White

FEATURES/BENEFITS

Legendary Reynolds 853 air-hardened chromoly receives an additional heat-treatment process that 631 does not, strengthening the steel, allowing Reynolds to draw the tubing walls thinner than on 631 frames, yielding an even lighter, stiffer frame with outstanding resiliency and "feel". Heat-treated chromoly rear stays and investment cast dropouts increase torsional stiffness by 30%

Our '09 Dragon features a new chainstay/seatstay disc brace that supports our thin-walled stays from loads generated by the disc brakes. The new brace is lighter and stronger than the plate we used last year

Fox's 32mm stanchion chassis features increased crown/stanchion overlap & Quad-tapered lower legs to optimize strength & stiffness while driving weight out

All Fox fork legs are designed to be used with post-mount disc brakes which offers greater adjustability than international standard (IS) mounts, resulting in easier & faster set-up

Avid's Juicy 3 hydraulic disc brakes offer many of the bells & whistles that's made the Juicy 5 one of the most popular brakes on the market. Their Tri-align Caliper Positioning system makes pad/rotor alignment a snap, while their Power Reserve Geometry lever design delivers power AND modulation (usually mutually exclusive attributes). With split clamp and indexed reach adjust

Shimano Deore XT Hollowtech II crankset features a hollow forging for lighter weight with an integrated BB for increased rigidity & pedaling efficiency

Shimano's new Deore XT Shadow derailleur features a QUIET super low-profile design that won't slap the chainstay in rough riding conditions. Direct cable routing reduces the risk of housing snag.

The Shadow derailleur features a stronger return spring that delivers positive, crisp shifts. It was clearly designed specifically for the rigors of aggressive trail riding

Shimano's Deore XT Rapidfire shifters offer a "2-way" release, allowing the upper lever to be pulled with the forefinger or pushed with the thumb depending upon rider preference

Ritchey's cockpit parts are manufactured by a 3D-forging process, allowing the part to be three dimensionally shaped in a single step while carefully controlling inner wall thickness

This forging process yields optimal grain structure and eliminates all internal imperfections, allowing Ritchey to use less material without sacrificing strength or durability

WTB's Silverado Team features an elongated shell that's super-light and offers superior racer-body fit. The long narrow length allows the rider more pedaling positions. With a Jamis only color scheme

The Pro gets topped off with Kenda Karma 120 tpi folding tires, some of the lightest, fastest rolling tires on the market. Just 900 grams for the pair!

SPECIFICATIONS

Frame	Reynolds 853 seamless air-hardened chromoly main tubes, reinforced head tube collars, double-buttet cromoly stays, Jamis lost wax dropouts
Fork	Fox 32FRL, air spring with lockout & external rebound damping adjuster, 32mm stanchions, 100mm travel
Headset	Ritchey Comp Logic V2 threadless, 1 1/8"
Wheels	Mavic XM317 eyeletted disc rims, 32H, Shimano Deore M525 disc hubs, WTB 14g stainless steel spokes
Tires	Kenda Karma, 26 x 2.1", folding bead
Derailleurs	Shimano Deore XT Shadow rear, Deore XT 28.6mm top pull front
Shiftlevers	Shimano Deore XT Rapidfire Plus-SL, 27-speed
Chain	Sram PowerChain 971 with Gold Power-Link
Cassette	SRAM Powerglide 970, 9-speed, 11-34
Crankset	Shimano Deore XT M770 Hollowtech II, 44/32/22, 170mm (13-15"), 175mm (17-21")
BB Set	Shimano Deore XT integrated
Pedals	Crank Brothers Candy C clipless
Brakeset	Avid Juicy 3 hydraulic disc brakes, 6" rotors, with Avid Juicy levers
Handlebar	Ritchey Mountain Comp Rizer OS, 31.8 O" x 20mm rise x 670mm
Stem	Ritchey Comp OS, 31.8 bar bore x 6" x 90mm (13"), 100mm (15"), 110mm (17") & 120mm (19" - 21")
Grips	WTB MotoTec clamp-on, DNA compound
Seat Post	Ritchey Comp 2B, 27.2 x 350mm, with alloy clamp & cromoly seatpin
Saddle	WTB Silverado, kevlar Corners, DNA padding, titanium rails
Sizes	13", 15", 17", 19", 21"
Color	Ghost Blue/Pearl White
Weight	25.90 lbs
