FEATURES/BENEFITS

Large diameter 700c road bike wheels roll faster & more predictably at speed and roll over bumps & potholes more comfortably than smaller diameter 26" mountain bike sized wheels.

Citizen's lightweight & durable aluminum frame offers hydroformed top and down tubes & bullet style cable guides for good looks and increased strength.

The sloping double-diamond frame design in 7 sizes assures the best possible customer fit for more comfort, better handling and increased safety.

RST's suspension fork offers 2" (50mm) of coil-sprung suspension, a lightweight alloy crown and preload adjuster to dial-in the stiffness of the suspension according to rider weight & preference.

Smooth-rolling, Vittoria Adventure Touring 700 x 35c tires actually have the same air volume and width of a 37mm tire and are more comfortable to ride than smaller width 23 - 28C road tires. These tires also feature a reflective sidewall stripe which for enhanced visibility in the dark.

The 21-speed twist shifting drivetrain features a full size SR/SunTour 48/38/28 crankset with chainguard, Shimano Acera rear derailleur and Mega-Range freewheel for easy pedaling whether uphill or down.

A near all-alloy parts list -- alloy micro-adjust seat post, alloy stem, alloy crank, alloy seat post clamp, alloy hubs, alloy rims, alloy brakes & levers, alloy kickstand -- reduces weight, adds value and is rust-proof.

Our super plush saddle features memory foam padding for optimum support with maximum comfort. The slip-resistant suede-type top prevents sliding and the burnished side panels reduce leg friction while pedaling. Elastomer springs help soak up high resonant road vibrations.

Our telescoping suspension seat post with 1" of coil-sprung travel smooths out the road and trail.

Our new dual-density grip delivers comfort and a secure non-slip steering interface between rider and handlebar.

The long quilled, angle-adjustable stem and 3" rise handlebars offer a comfortable, upright ride position that's easy on neck & wrists.

TPE slip-resistant, shock-absorbing inserts on finger & foot contact points on both brake levers and pedals help Citizen deliver a comfortable and secure workout.
