

2009 JAMIS X.24

UPGRADES FROM 2008

Available in a gender-neutral color option

Nutted hub axles

Alloy seat clamp with cromo seat pin

XC saddle

Sugar Green/Gloss Black

Gloss Black/Pearl White

FEATURES/BENEFITS

Our lightweight & durable 7005 aluminum X-24 frame is easier to pedal than steel

The X-24 frame is spec'ed with a replaceable rear derailleur hanger for increased frame longevity

That suspension fork isn't just for cool looks. It's 45mm of bump-eating, telescoping travel means greater control & safety for young riders

Compared to bigger 26" wheeled bikes, the smaller diameter 24" wheels and shorter 12" frame of the X-24 provides more standover clearance and a lower center of gravity for enhanced control & safety, so young aspiring mountain bikers can learn to ride both on road and off comfortably, securely and safely

The double chainring crankset offers increased gear range (14-speeds) with an alloy outer rock guard to protect the chainrings from contact with curbs or logs. Helps keep pants and legs clean too!

A full alloy parts package -- including micro-adjust seat post, threadless stem, crankarms, seat post clamp, brakes & rims -- reduces total bike weight and adds value

The X-24's XC saddle offers lots of high quality padding for comfort and control, with a narrow nose so that legs can pedal freely without chafing

SRAM's MRX twist shifters are kid friendly & easy to shift

We've spec'ed nut type, non-quick release hubs and seat post clamps, so that wheels and seats remain securely and safely attached to the frame and fork

SPECIFICATIONS

Frame	Enduro frame design, 7005 aluminum tubes, tapered/ovalized top tube, down tube & stays with replaceable derailleur hanger
Fork	Suspension fork with coil spring, 45mm travel
Headset	Aheadset, 1 1/8"
Wheels	Alloy 36H black anodized rims with brushed brake tracks, heavy duty ATB hubs with nutted axles and 14G nickel-plated spokes
Tires	CST ATB, 24 x 1.95", blackwall
Derailleurs	Shimano TX30 rear and TZ30 top pull front
Shiftlevers	SRAM MRX Grip Shift, 14-speed
Chain	KMC Z51
Cassette	Indexed, 7-speed, 13-28T
Crankset	Forged alloy crank, 152mm, with 34/24T chainrings and protective outer rock-ring
BB Set	Cotterless type, 3PB axle, 68 x 119mm (32 - 52 - 35)
Pedals	ATB style, hi-impact resin, toe-clip attachable
Brakeset	Alloy linear pull type with full alloy short reach levers
Handlebar	ATB tapered, 6° sweep x 13mm rise x 580mm wide
Stem	Jamis threadless, 10D rise x 60mm extension
Grips	Kraton for Grip Shift
Seat Post	Alloy micro-adjust, 27.2 x 300mm, with 31.8mm alloy clamp
Saddle	XC ATB style
Sizes	12"
Color	Gloss Black/Pearl White or Sugar Green/Gloss Black
Weight	28.20 lbs
