## SPECIFICATIONS

Frame	Full high modulus carbon, Omniad Elite M30 lay-up, 130mm travel mp4 suspension, Press Fit 30 bottom bracket, 12 x 142 rear dropouts, 1.5 - 1 1/8" tapered head tube, dropper post routing, high direct mount front derailleur, asymmetrical chainstays, stainless steel chain stay protector, cartridge bearing pivots, Rock Shox Monarch RT3 High Volume w/ 3-position compression (open/platform/lock), 10mm hardware, replaceable derailleur hanger, Rock Shox Maxle Lite axle
Fork	Rock Shox Revelation 27.5" RCT3 w/ 3-position compression adjust (open/platform/lock), 15mm axle, tapered alloy steerer, external rebound adjust, 130mm travel
Headset	FSA Orbit 1.5 internal cup, for tapered head tube, 8mm cone spacer
Wheels	Stan's NoTubes ZTR Arch EX Team 27.5" tubeless wheels, 3.30 Series 15mm axle front and 12x142mm rear hubs, DT Swiss Competition spokes, Dt Swiss alloy nipples
Tires	Vittoria Goma, 27.5 x 2.25", TNT
Derailleurs	Shimano XTR Shadow Plus 11-speed rear and XTR direct mount front
Shiftlevers	Shimano XTR, 2x11-speed
Chain	Shimano HG900, 11-speed
Cassette	Shimano M9000, 11-speed, 11-40T
Crankset	Shimano XTR M9020, 36/26T, 170MM (15"), 175MM (17-21")
BB Set	FSA PressFit 30
Pedals	N/A
Brakeset	Shimano XTR Trail M9020 hydraulic disc, Ice-Technology pads & 180mm front/160mm rear RT86 Ice-Technology 6-bolt rotors
Handlebar	Ritchey Trail WCS Carbon, 740mm x 20mm rise, 9° sweep
Stem	Ritchey Trail WCS, 70mm (15"), 80mm (17"), 90mm (19"), 100mm (21")
Grips	Jamis Lock-On
Seat Post	KS LEV DX, 125mm travel, handlebar remote, 385mm x 31.6
Saddle	WTB Volt Team
Sizes	15", 17", 19", 21"
Color	Grey Matter

## CHANGES/UPGRADES FROM 2014

- Shimano XTR 2x11-speed drivetrain
- Shimano XTR Trail brakes
- Ritchey Trail WCS Carbon cockpit
- KS LEV DX dropper seatpost
- Vittoria Goma TNT tires

## REASONS TO UPGRADE FROM DAKAR XCT RACE

- Shimano XTR 2x11-speed drivetrain & brakes
- Rock Shox Revelation RCT3 fork
- Stan's No Tubes ZTR Arch EX Team wheelset
- KS LEV DX dropper seatpost
- Vittoria TNT tires

## TOP 5 THINGS YOU NEED TO KNOW

The Rock Shox Revelation RCT3 fork features 32mm upper tubes, a 3-position (open/platform/lock) compression lever to adjust efficiency, external rebound adjust and the Solo Air spring system.

Rock Shox Monarch RT3 rear suspension features a 3-position (open/platform/lock) compression lever to adjust pedaling efficiency and the Solo Air spring system with a single Schrader air valve simplifying suspension setup while retaining a lightweight and plush ride.

Stan's NoTubes ZTR Arch EX Team tubeless wheels feature Bead Socket Technology providing a secure connection with your tire, full tire inflation for improved traction, more control in corners and less rolling resistance.

Shimano's XTR 2x11-speed Dynasys drivetrain's real advantage is the ability to have all the range you require without sacrificing the rhythm between gears.

KS Suspension's LEV dropper seatpost features a cable connection at the collar resulting in zero cable housing movement when in use.

## GEOMETRY

SIZE	CENTER of BB to TOP of TT	EFFECTIVE TT LENGTH	HT ANGLE	ST ANGLE	CHAINSTAY	WHEELBASE	FORK RAKE	BB HEIGHT	HEADTUBE	STANDOVER
15"	13.62/346	22.24/565	69°	73°	17.71/450	43.15/1096	1.65/42	13.42/341	4.53/115	30.91/785
17"	15.23/387	23.03/585	69°	73°	17.71/450	44.05/1119	1.65/42	13.42/341	4.72/120	31.73/806
19"	16.34/415	23.82/605	69°	73°	17.71/450	44.76/1137	1.65/42	13.42/341	5.51/140	32.68/830
21"	18.31/465	24.61/625	69°	73.5°	17.71/450	45.43/1154	1.65/42	13.42/341	5.90/150	33.89/860
