TOP 5 THINGS YOU NEED TO KNOW

Shimano's new Tiagra 4700 10-Speed group incorporates many of the trickle down benefits of its big brothers. Reduced shifting effort, better braking from the hoods, more control based on better ergonomics and durability which is a must when taking your adventure off road.

FSA's compact chainring concept is revolutionary. The FSA Vero 50/34 crank gives you a 15% lower gear ratio with only a 6% off the top ring. You get the hill climbing capability of a triple, yet less weight than a standard double.

Selle Royal has been a world-leading bicycle saddle brand for over 50 years. The handmade Seta S1 with neat Integrated Clip system is a lightweight high performance saddle with a flat-topped surface to improve flexibility, regardless of the rider's seating position.

Alex AT 470 rims with TCS (Tubeless Compatible System) technology mated with Formula smooth spinning hubs and DT Champion stainless spokes, meticulously built, makes for a great all-around wheelset.

The Ritchey Logic Comp over-sized 31.8 handlebar & 4-Axis stem combination delivers comfort, light weight and reliability where rider's most need it: in their hands.
