“We take a no-nonsense, zero-gimmicks approach to our bikes. We design them to perform.”

“A Jamis bicycle is built to perform right out of the box, and to be reliable years and miles down the road...”

At Jamis, building bikes is a commitment. It's a commitment to performance, to build fun bikes we like to ride. It's a commitment to quality, because it's our name on the head tube. And it's a commitment to you, to provide the most value possible for your dollar.

We take a no-nonsense, zero-gimmicks approach to our bikes. We design them to perform, and we do it by focusing on details, rather than chasing the latest trends or creating hype. It's a formula that works. Mountain Biking magazine proved it last year by naming a Jamis the best overall mountain bike—for the fourth time.

And Team Jamis proved it last season, bringing home the Mountain Cross UCI World Cup title on a Jamis Dakar Series frame.

When we design a bike to perform, it's crafted for more than pure speed. It's made to be fun. For us, performance also means reliability, durability and bang for the

buck, and we deliver on all counts. A Jamis

bicycle is built to perform right out of the box, and to be reliable

Carine Joannou
President - Jamis Bicycles®

years and miles down the road because we believe cycling fun is a long-term pursuit.

Whether you're a first-time cyclist or a committed racer, you'll find a Jamis bike that fits your style of riding, and your budget. Every Jamis bicycle carries the best possible components for

its class, with more performance per dollar.

That's our promise, our commitment to you.

Our Dakar dual-suspension bikes are the best in the world. And we're not the ones saying it. Mountain Biking magazine declared last year's Dakar XLT 2.0 the Best Overall Mountain Bike, giving it the nod for the All Mountain title as well. And the Dakar XC Comp nicked the highly coveted Aggressive Cross-Country trophy, too. What's more,

it's travel while active. And we've added two new models. The five inch travel XLT 3.0 features a ride height adjustment system so you can tune bike geometry to match any terrain. And our new XC Expert blends the best attributes of our top-of-the line Pro and award winning Comp to make an exceptionally fast ride one exceptionally smart buy.

“Jamis has been refining the Dakar Series for years, turning it into one of the best suspension designs on the market.”

Mountain Biking Magazine - March 2003

Team Jamis' Katrina Miller pedaled her Dakar to her third UCI World Cup title.

After a year like that, most bike companies would be content to rest on their laurels. But we're not most companies.

For 2004, we've given the Dakar series a redesigned rear triangle that includes a Fox ProPedal or Manitou SPV rear shock for an absolutely firm pedaling platform. It's amazingly compliant on small bumps, yet won't blow through

Suspension bikes give you better traction and control, whether you're climbing, descending or railing through a fast corner. And the Dakar series offers more parts content (like disc brakes on seven of our eight models) and better performance than the rest. But don't take our word for it. Just ask the editors at Mountain Biking, or Katrina Miller, and they'll tell you—Jamis Dakar is a winner.

Dakar XLT 3.0

New for '04, the Dakar XLT 3.0 is our pull-out-the-stops 5-inch-travel full suspender. We redesigned the rear triangle and seatstay pivot from last year's award-winning Dakar XLT platform, with beefed-up stays and sealed bearings throughout, for toughness and durability. A Fox TALAS RL shock adjustable for 90-125mm of travel and matching TALAS RLC fork good for 80-125mm of travel lets you change ride height and bike geometry to suit the terrain you've suited up for. And we spec Mavic's top shelf CrossMax XL UST disc wheels, Avid's new Juicy Seven brakes, and a Shimano XTR/XT drivetrain. Absolutely, the highest performing parts from the best in the business.

Frame:	Kinesium triple-buttet aluminum, 125mm travel, Fox Talas RL adjustable travel shock,
Fork:	Fox TALAS RLC, 12-click rebound adjustment, lockout, low speed compression adjustment, 85-125mm travel.
Wheels:	Mavic CrossMax XL disc wheelset, Mactal SUP rims FTS sealed cartridge hubs, Zicral spokes.
Tires:	Hutchinson Scorpion, tubeless, Kevlar, 26 x 2.30".
Drivetrain:	Shimano XTR high normal rear & XT front derailleurs, Deore XT Rapidfire-SL 27-speed shifters, Deore XT Hollowtech II 44/32/22 crankset, Time Alium clipless pedals.
Brakeset:	Avid Juicy Seven hydraulic disc system.
Cockpit:	TruVativ Team Riser Bar, Team stem, XR double clamp seatpost, Fi:zi'k Plateau saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Ano Grey/Matte Black
Weight:	28.25 lbs.

The Dakar XLT 2.0 swept Mountain Biking magazine's 2003 awards, taking "Best Overall" and "Best All-Mountain," and it's even better this year. Improvements include a new rear triangle and seatstay pivot, with sealed bearings throughout. A Manitou Swinger Air SPV 4-Way shock gives 130mm of bump-swallowing travel and almost hardtail-like climbing efficiency with its resistance to pedal-induced motion. A Manitou Minute 2:00 SPV fork with 125mm of travel gives matching performance up front. Avid Juicy Seven brakes haul you down from speed, for true go-everywhere, ride-anything performance.

Frame:	Kinesium triple-buttet aluminum, 25mm travel, Manitou Swinger Air SPV 4-Way rear shock
Fork:	Manitou Minute 2:00, air spring system, 130mm travel.
Wheels:	Mavic X231 disc rims, Shimano Deore XT disc hubs, 14g WTB black stainless steel spokes.
Tires:	Hutchinson Scorpion, Kevlar, 26 x 2.30".
Drivetrain:	Shimano Deore XT derailleurs and Rapidfire-SL 27-speed shifters, TruVativ Holzfeller 44/32/22 crankset
Brakeset:	Avid Juicy Seven hydraulic disc system front & rear with Avid Juicy Seven levers.
Cockpit:	TruVativ XR-XC Riser Bar, Wavo stem, and XR double clamp seatpost, Fi:zi'k Plateau saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Brushed Silver/Matte Black
Weight:	29.00 lbs.

Like the rest of this year's Dakar XLT line, the XLT 1.0 frameset gets a new rear triangle and seatstay pivot with sealed bearings throughout, but the real story is the Manitou SPV technology built into the Swinger Air 3-Way shock and Minute 1:00 SPV fork, which resist pedal-bob to give climbing efficiency you've never seen in a 5-inch-travel full-suspender. Top it off with Hayes HFX Comp hydraulic discs, and you've got a bike with true all-mountain performance that's truly affordable.

Frame:	Kinesis 7005 triple-buttet aluminum, 125mm travel, Manitou Swinger Air SPV 4-Way rear shock
Fork:	Manitou Minute 1:00, coil spring system, 100-130mm travel
Wheels:	Mavic XM117 disc rims, Shimano Deore disc hubs, 14g WTB black stainless steel spokes.
Tires:	Hutchinson Scorpion, 26 x 2.3".
Drivetrain:	Shimano Deore XT rear & Deore front derailleurs, Deore 27-speed Rapidfire-SL shifters, TruVativ Hussefelt crankset
Brakeset:	Hayes HFX Comp hydraulic disc brakes with Hayes HFX Comp alloy levers levers.
Cockpit:	TruVativ XR-XC Riser Bar, Wavo stem, and XR single clamp seatpost, WTB Laser V Comp saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Flame Red/Gloss Black
Weight:	30.25 lbs.

Dakar XC Pro

When we say Pro, we really mean it. The XC Pro is ready to race right out of the box, with Shimano's top-of-the-heap XTR components. You get a complete XTR drivetrain with Dual Control levers actuating the XTR hydraulic discs, which spin on matching XTR hubs laced to lightweight Mavic XC-717 disc rims. The XC Pro's frameset gives you perfect geometry for powering over flats and uphill, with the kind of steering precision you need to make the most of the Fox F100X fork and Fox FLOAT RL AVA shock on the descents. If you've got the legs, this is the bike that'll get you on the podium.

Frame:	Kinesium triple butted mainframe & 7005 triple-buttet stays, 90mm travel, Fox FLOAT RL AVA rear shock
Fork:	Fox F100X, 100mm travel.
Wheels:	Mavic XC-717 Maxtal/SUP disc-ready rims, Shimano XTR disc brake hubs, WTB 14g spokes
Tires:	Hutchinson Python AirLight, Kevlar, 26 x 2.0".
Drivetrain:	Shimano XTR rear & front derailleurs, XTR 27-speed Dual Control shifters, XTR 2-piece hollowtech 44/32/22 crankset, Time ATAC Classic pedals.
Brakeset:	Shimano XTR disc brakes with XTR Dual Control brake levers.
Cockpit:	TruVativ Team Riser Bar, Team stem, XR double clamp seatpost, Fi:zi'k Gobi saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Brushed Silver/Radium Blue
Weight:	24.75 lbs.

The Dakar XC Expert shares its frame with the XC Pro, with the same redesigned rear triangle and seatstay pivot, with sealed bearings throughout. We spec the Expert with the Fox Float RL shock and Float 100 RL fork, for 90mm of rear travel and 100mm of front travel for balanced suspension performance. It's got Shimano's new Deore XT Dual Control drivetrain and hydraulic disc brakes. We even include a set of Time's proven ATAC Alium pedals. Just mount your cleats and go!

Frame:	Kinesium triple butted mainframe & 7005 triple-buttcd stays, 90mm travel, Fox FLOAT RL rear shock
Fork:	Fox Float 100 RL, 100mm travel.
Wheels:	Mavic X223 disc rims, Shimano Deore XT centerlock disc hubs, 15g WTB black stainless steel spokes.
Tires:	Hutchinson Scorpion Airlight, Kevlar, 26 x 2.0".
Drivetrain:	Shimano Deore XT rear & XT front derailleurs, XT Dual Control 27-speed shifters, TruVativ Stylo crankset
Brakeset:	Shimano Deore XT hydraulic disc brakes with XT Dual Control brake levers.
Cockpit:	TruVativ XC-XR Riser Bar, Team stem, and XR double clamp seatpost, Fi:zi'k Plateau saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Ano Grey/Brushed Silver
Weight:	26.50 lbs.

The Dakar XC Comp won Mountain Biking magazine's award for best aggressive cross-country bike last year. The '04 version is even better, with the Dakar XC's upgraded frame, Avid's Ball Bearing disc brakes, Shimano Deore XT Dual Control drivetrain, and Shimano Deore hubs and Deore shifters and derailleurs. You get the same precise handling and geometry from the rest of the Dakar XC line, delivered at a budget-friendly price that's impossible to beat.

Frame:	Kinesium triple butted mainframe & 7005 triple-buttcd stays , 90mm travel, Fox FLOAT R rear shock
Fork:	Manitou Black Elite, 100mm travel
Wheels:	Mavic XM117 rims, Shimano Deore hubs, 15g WTB black stainless steel spokes
Tires:	Hutchinson Scorpion Airlight, Kevlar, 26 x 2.0"
Drivetrain:	Shimano Deore XT rear & Deore front derailleurs, Deore XT 27-speed Dual Control levers, TruVativ Stylo crankset
Brakeset:	Avid CPS Ball Bearing cable actuated disc brakes with XT Dual Control brake levers
Cockpit:	TruVativ XR-XC Riser Bar, Wavo stem, and XR single clamp seatpost, WTB Laser V Comp saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Gloss Black/Platinum
Weight:	27.75 lbs.

The Dakar Sport's frame features a new 1-piece bellcrank, radiused stays and new dropouts, with seatstay-located dropout pivots for supple suspension action that's active in all conditions for no-compromise performance. The 100mm travel Manitou Black Comp fork's externally adjustable rebound damping lets you tune it to match the Fox Vanilla shock's suspension action over its 90mm of travel. With a 27-speed Shimano Deore drivetrain and Hayes HMX-1XC disc brakes, the Dakar Sport delivers full performance in a proven, reliable package.

Frame:	7005 aluminum frame, 90mm travel, Fox Vanilla rear shock
Fork:	Manitou Black Comp, 100mm travel
Wheels:	Alex TD17 disc rims, Formula Hi-Lo Disc hubs front & rear, 14g black stainless steel spokes
Tires:	Hutchinson Spider 26" x 2.0" blackwalls
Drivetrain:	Shimano Deore rear & front derailleurs, Deore Rapidfire-SL 27-speed shifters, TruVativ Firex crankset
Brakeset:	Hayes HMX-1XC cable actuated disc system front & rear, Avid FR-1 alloy levers
Cockpit:	Alloy Riser handlebar, alloy threadless stem, alloy micro-adjust 350mm seatpost, WTB Laser V Comp saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Matte Grey/Matte Black
Weight:	31.75 lbs.

Dakar

The Dakar uses the Dakar Sport's frame, for dialed-in cornering and superb suspension action, paired with Manitou's 100mm travel Axel Comp fork. Use the 90mm of rear travel and 100mm of fork travel for fast, sure-footed handling that makes the most of the grippy Hutchinson Spider tires. Avid FR-1 levers and forged alloy rim brakes give you confident stopping power now, while disc-ready hubs make this bike easy to upgrade later on.

Frame:	7005 aluminum frame, 90mm travel, Fox Vanilla rear shock
Fork:	Manitou Axel Comp, 100mm travel
Wheels:	Weinmann ZAC 2000 double wall rims, Formula Hi-Lo Disc front & rear hubs, 14g black stainless steel spokes
Tires:	Hutchinson Spider 26" x 2.0" blackwalls.
Drivetrain:	Shimano Deore rear & Alivio front derailleurs, Alivio Rapidfire-SL 24-speed shifters, TruVativ 5D crankset
Brakeset:	Tektro forged alloy direct pull brakes, Avid FR-1 levers.
Cockpit:	Alloy Riser handlebar, alloy threadless stem, alloy micro-adjust 350mm seatpost, WTB Speed V Comp saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Matte Blue/Matte Silver
Weight:	32.00 lbs.

When it comes to performance, we're definitely a no-nonsense outfit. And nothing embodies this philosophy more than a Jamis hardtail. We begin with carefully refined geometry, using properly sized cockpits that fit so you'll ride with comfort and efficiency. Our hardtails steer with precision, letting

drawer parts. You'll find Shimano drivetrains, disc brakes from Shimano, Avid and Hayes, both hydraulic and cable actuated, with UST tubeless tires and wheels at the high end, and the most content per dollar of any bike at any price level.

We build Jamis hardtails to encompass

“There are plenty of reasons to ride a Jamis Hardtail: More value, less maintenance, greater versatility and superior performance.”

you pick lines on the trail with the practiced smoothness of a Vegas dealer. And we give them chainstays that are short enough for climbing traction, but long enough for stability and ride comfort so they won't punish you after spending a long day on the trails.

Jamis hardtails are crafted from name-brand tubing such as Reynolds steel and Kinesis Superlight aluminum. And we back our quality frames with top-

every aspect of off-road performance, from big-drop hucking bikes to pared-down cross-country rigs to all-purpose, all-rounders with go-everywhere versatility.

There are plenty of reasons to ride a Jamis hardtail—more value, less maintenance, greater versatility and superior performance among them. But the best reason is the smile it puts on your face.

Ride one, and see for yourself.

Nothing says you’re serious about XC performance than a quality hardtail, and the Dragon is one of the best factory-built examples you’ll find. Reynolds 853 steel main tubes and double-tapered chrome-moly stays give you the rugged front-end stiffness you need for pedaling efficiency and precision cornering, with the suppleness of steel’s signature ride. We kit it out with a full Shimano XTR drivetrain, and multi-adjustable Fox F80RLT fork with lockout. We even include up-spec Mavic CrossMax Disc SL UST wheels and Hutchinson tubeless Python tires, with Time’s ATAC Classic pedals. All you need is a number plate.

Frame:	Reynolds 853 seamless air-hardened cromo main tubes, double tapered cromo stays, Jamis lost wax dropouts
Fork:	Fox F80RLT, Terra Logic inertia valve technology, 80mm travel
Wheels:	Mavic CrossMax Disc SL, Maxtal SUP rims, FTS sealed cartridge hubs, Zicral spokes
Tires:	Hutchinson Python Kevlar, 26 x 2.0", Tubeless
Drivetrain:	Shimano XTR rear & front derailleurs, XTR 27-speed Dual Control shifters, XTR 2-piece hollowtech crankset
Brakeset:	Shimano XTR disc brakes with XTR Dual Control levers
Cockpit:	TruVativ Team flatbar, Team stem, XR double clamp seatpost, Fi:zi’k Gobi saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Radium Blue/Gloss Black
Weight:	22.50 lbs.

If you crave the Dragon’s top-level capability but don’t have the budget to match, the Dakota XC is your rig. It’s half the price and comes with the same geometry for razor-sharp handling. The Dakota XC’s frame is welded up from Reynolds 631 air-hardened steel main tubes, and we pair it with Manitou’s Mars Skareb Elite fork and Avid disc brakes so you’ll be able to keep those Hutchinson Python tubeless knobbies and Mavic CrossLand Disc UST wheels firmly planted.

Frame:	Reynolds 631 seamless air-hardened cromo main tubes, double tapered cromo stays, Jamis lost wax dropouts
Fork:	Manitou Mars Skareb Elite, 80mm travel
Wheels:	Mavic CrossLand Disc UST wheelset, QRM sealed cartridge bearing hubs, double butted stainless steel spokes
Tires:	Hutchinson Python Tubeless, Kevlar, 26 x 2.0"
Drivetrain:	Shimano Deore XT rear & front derailleurs, XT Rapidfire-SL 27-speed shifters, TruVativ Stylo crankset
Brakeset:	Avid CPS Ball Bearing cable actuated disc brakes with Avid FR-1 levers.
Cockpit:	TruVativ XR-XC flatbar, Team stem, XR double clamp seatpost, Fi:zi’k Nisene saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Flame Red/Gloss Black
Weight:	24.75 lbs.

Dakota AL

It's tough to beat aluminum for pure lightweight efficiency, and if that's what you crave the Dakota AL has just what you need. Triple-buttet aluminum main tubes and D-shape stays make for a rigid platform, while features like the gusseted downtube, chisel-cut dropouts and replaceable derailleur hanger ensure durability. A Shimano Deore XT drivetrain, Avid Ball Bearing disc brakes and the Manitou Skareb Comp fork complete the high-performance picture, for plenty of low-maintenance fun.

Frame:	7005 Kinesis Superlight triple butted aluminum main tubes and D-shaped stays, chisel cut dropouts
Fork:	Manitou Skareb Comp, 80mm travel
Wheels:	Mavic XM117 disc rims, Shimano Deore disc hubs front & rear, WTB 15g black stainless steel spokes
Tires:	Hutchinson Mosquito, 26" x 2.0".
Drivetrain:	Shimano Deore XT rear & Deore front derailleurs, Deore Rapidfire-SL 27-speed shifters, TruVativ Stylo crankset
Brakeset:	Avid CPS Ball Bearing cable actuated disc brakes with Avid FR-1 levers
Cockpit:	TruVativ XR-XC flatbar, stem, single clamp seatpost, Fi:zi'k Nisene saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Brushed Silver/Gloss Black
Weight:	25.50 lbs.

Exile

The Exile is a no-nonsense, zero-frills performance package. The Reynolds 520 double-buttet chrome-moly steel main tubes and double-tapered chrome-moly stays provide ride suppleness that can't be matched by the straight-gauge aluminum frames that are the norm at this price. And we back it up with Manitou's Axel Elite fork with externally adjustable rebound damping and Avid's legendary ball bearing disc brakes with disc-specific rims for lightweight performance and response. It's low budget, but definitely not low performance.

Frame:	Reynolds 520 double-buttet chromoly main tubes, double tapered cromo stays, forged dropouts with eyelets
Fork:	Manitou Axel Elite, aluminum steerer, 80mm travel.
Wheels:	Alex TD17 disc-specific rims, Shimano Deore front & rear hubs, WTB black 15g stainless steel spokes
Tires:	Hutchinson Mosquito 26" x 2.0" blackwalls.
Drivetrain:	Shimano Deore rear & front derailleurs, Deore Rapidfire-SL 27-speed shifters, TruVativ FireX ISIS crankset
Brakeset:	Avid CPS Ball Bearing cable actuated disc brakes with Avid FR1 levers
Cockpit:	TruVativ XR-XC flatbar, stem, single clamp seatpost, WTB Speed V Comp saddle
Sizes:	13", 15", 17", 19", 21"
Color:	Radium Blue/Gloss Black
Weight:	26.75 lbs.

The Komodo FX is a burly, big-hit hardtail that delivers the goods without the weight and complexity of a full-suspension platform. The 7005 triple-gauge aluminum main tubes and big D-shape stays are all-conditions ready, and shrug off hits that'll bottom the Manitou Axel Elite's 100mm of travel without even a whimper. With TruVativ's Hussefelt crank and alloy bash guard, an oversize 31.8mm Hussefelt stem and riser bar, Hayes mechanical discs and an SDG saddle with oversize 8mm rails, if you can dish it out, the Komodo FX can take it and keep coming back.

Frame:	7005 triple gauge aluminum main tubes, D-shape stays, chisel cut dropouts
Fork:	Manitou Axel Elite, aluminum steerer, 80mm travel
Wheels:	Alex TD17 disc-specific rims, Shimano Deore front & rear hubs, WTB black 15g stainless steel spokes
Tires:	Hutchinson Scorpion, 26 x 2.3".
Drivetrain:	Shimano Deore rear & front derailleurs, SL-MC20 24-speed shifters, TruVativ Hussefelt ISIS crankset
Brakeset:	Hayes HMX-1 mechanical disc system front & rear with Avid FR1 levers
Cockpit:	TruVativ Hussefelt 6061 stem & 6061 TruVativ RiserBar, TruVativ SingleClamp post, SDG FRD 8mm rail saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Matte Black
Weight:	28.75 lbs.

The Durango SX goes up-spec for '04, but stays in the friendly price range. Upgrades for this year include Hayes MX-2 cable-operated disc brakes with Avid FR-1 levers, a tough-but-lightweight TruVativ 5D crank and Manitou's Axel Comp fork with fluid flow damping and adjustable preload. The Axel Comp's 80mm of controlled travel lets you make the most of the Durango's handling abilities whether you're climbing uphill or bombing the descents.

Frame:	7005 aluminum main tubes and S-bend stays, gusseted down tube, chisel cut dropouts
Fork:	Manitou Axel Comp, 80mm travel
Wheels:	Alex TD17 disc rims, Formula Hi-Lo Disc front & rear hubs, 14g stainless steel spokes.
Tires:	Hutchinson Mosquito 26" x 2.0" blackwalls
Drivetrain:	Shimano Deore rear & Deore front derailleurs, Deore Rapidfire-SL 27-speed shifters, TruVativ 5D crankset
Brakeset:	Hayes MX-2 cable-actuated disc brakes, Avid FR-1 forged alloy levers
Cockpit:	Alloy Riser handlebar, alloy threadless stem, alloy micro-adjust 350mm seatpost, WTB Speed V Sport saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Black Chrome/Platinum or Flame Red/Matte Silver
Weight:	27.00 lbs.

The Durango Sport SX is budget friendly, but packs a feature-laden wallop. Just check out the Tektro cable-actuated disc brakes, Manitou Six suspension fork, and Shimano 24-Rapidfire-speed drivetrain. The 7005 aluminum frame's S-bend stays provide plenty of tire and mud clearance, with a gusseted downtube and replaceable derailleur hanger for longevity. The Durango Sport SX will get you out on the trail quickly, with reliable parts and dirt-proven geometry.

Frame:	7005 aluminum main tubes and S-bend stays, chisel cut dropouts
Fork:	Manitou Six, aluminum sliders, 80mm travel
Wheels:	Weinmann ZAC 2000 double wall rims, Formula Hi-Lo Disc front & rear hubs, 14g stainless steel spokes
Tires:	CST ATB, 26" x 1.95", blackwalls
Drivetrain:	Shimano Deore rear & Acera front derailleurs, Acera Easyfire 24-speed shifters, TruVativ IsoFlow crankset
Brakeset:	Tektro IO cable-actuated disc brakes, Shimano Acera forged alloy levers
Cockpit:	XC 20mm riser bar, Jamis 10° rise threadless stem, alloy micro-adjust seatpost, Jamis XC saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Ball Burnished or Matte Silver/Matte Black
Weight:	28.00 lbs.

We've upgraded our popular Cross Country-series bikes with a new 6061 triple-gauge aluminum frame featuring more aggressive geometry and the ovalized, bi-axial top and downtube design from our Durangos. An SR XC60 fork provides 75mm of preload-adjustable travel, and you get Shimano 24-speed drivetrain reliability with a broad gearing range for easier climbing and fast descents. A great all-around performance package.

Frame:	6061 triple gauge aluminum main tubes, S-bend stays, chisel cut dropouts
Fork:	SR XC60, 75mm travel, 1-pc aluminum brace & sliders
Wheels:	Weinmann 520 black alloy rims, Formula front & cassette freehub rear, 14g stainless steel spokes
Tires:	CST ATB, 26" x 1.95", blackwalls.
Drivetrain:	Shimano new Acera rear & front derailleurs, Acera EF-35 Easyfire 24-speed shifters, RPM 4-arm crankset
Brakeset:	Tektro alloy direct pull brakes, Shimano Acera forged alloy levers
Cockpit:	XC 20mm riser bar, Jamis 10° rise threadless stem, alloy micro-adjust seatpost, Jamis XC saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Flame Red/Gloss Black or Primal Grey/Gloss Black
Weight:	29.25 lbs.

The Cross Country 1.0 takes its frame from its Cross Country 2.0 sibling, so you get the same easy-to-maneuver handling, more upright posture with optimal weight distribution for climbing and descending. An all-Shimano drivetrain makes for a trustworthy, low-maintenance drivetrain, and you get the smooth braking of Tektro direct-pull brakes. It's an economical performer with lots of upgrade potential, to keep pace with your growing skills and budget.

Frame:	6061 triple gauge aluminum main tubes & S-bend stays, gusseted down tube, chisel cut dropouts
Fork:	SR XC50, 63mm travel, 1-pc aluminum brace & sliders
Wheels:	Weinmann 520 black alloy, Formula sealed QR front & rear hubs, 14g stainless steel spokes
Tires:	CST ATB, 26" x 1.95", blackwalls.
Drivetrain:	Shimano Altus rear & SRAM 3.0 front derailleurs, Shimano Acera 21-speed EZ-Fire shifters, SR 4-arm crankset
Brakeset:	Tektro alloy direct pull brakes, Shimano Acera forged alloy levers
Cockpit:	XC 20mm riser bar, Jamis 10° rise threadless stem, alloy micro-adjust seatpost, Jamis XC saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Matte Blue/Matte Silver or Matte Black
Weight:	29.75 lbs.

Ranger SX

To design the all-new Ranger SX, we took everything we know about making efficient performance bikes and boiled it down into an affordable, easy-to-ride bicycle. The Ranger SX employs tapered and ovalized aluminum main tubes, oversize stays and chiseled dropouts—features usually found only on higher level mountain bikes—to create a lightweight, durable handler that's easy to ride on road and trail alike.

Frame:	7005 aluminum main tubes, tapered/oval top & down tubes, oversized stays, chisel cut dropouts
Fork:	SR M3000, 50mm travel, alloy crown, coil spring, full boot
Wheels:	Alloy 26 x 1.5", with QR front & rear hubs, 14g nickel plated spokes
Tires:	CST ATB, 26" x 1.95", blackwalls
Drivetrain:	Shimano Tourney TX30 rear & TZ30 front derailleurs, SRAM MRX-204 21-speed GripShift, SR 4-arm crankset
Brakeset:	Alloy direct pull brakes and levers
Cockpit:	XC 20mm riser bar, Jamis 10° rise threadless stem, alloy micro-adjust seatpost, Jamis XC saddle
Sizes:	12", 14", 17", 19", 21"
Color:	Flame Red or Gloss Black
Weight:	33.50 lbs.

With more than a century of uninterrupted refinement, the road bike is one of the world's purest, function-driven machines. It is a machine built without distraction, designed solely for speed over pavement, making the most of what your legs can muster.

10-speed components, for an impossibly lightweight bike with rocketship response. And we follow it up with the Eclipse carbon-and-steel bike, which provides steel's legendary ride and handling at a weight no all-steel bike can match. Further down the

The Xenith is an extraordinary bike.
It truly does blend the best ride characteristics of steel and aluminum, and delivers a heckuva components package for the money.”

July 2003 - bicycletest.com

Jamis road bikes use time-honored geometry and design, for handling that's crisp and responsive, and we combine them with modern materials and technology to stretch the very limits of performance.

We peg the throttle with our Xenith's lithium-aluminum alloy frame and Shimano's latest Dura-Ace

line you'll find triple-buttressed aluminum and double-buttressed chromoly frames, trustworthy parts and the best blend of ride and handling you'll find on two wheels.

Whether you live for the weekend race, a long summer tour or are just discovering the joys of road riding, there's a Jamis that speaks your language.

Xenith

Our flagship performance road bike won raves in '03, the only complaint being its very limited production. This year we're building even more Xeniths, and we're upping the ante with Shimano's new 10-speed Dura-Ace componentry and Easton's amazingly light, stiff EC90 carbon handlebar and EA70 stem. But we don't stop there—we cap it off with an EC70 carbon seatpost and Fi'zi:k's new Giro d'Italia-winning Arione saddle. If you want to experience steel's supple ride while enjoying aluminum's lightweight heft, the Reynolds X100 lithium aluminum alloy frame gives you the best of both, with razor-edge handling and power-efficient geometry.

Frame:	Reynolds X100 lithium alloy tubes with STI bosses on down tube
Fork:	Easton EC90 carbon fork, 1 1/8", carbon threadless steerer
Wheels:	Mavic Ksyrium SSC SL wheelset (except 47cm),
Tires:	Hutchinson Fusion Competition, Kevlar
Drivetrain:	Shimano Dura-Ace rear & front derailleurs, Dura-Ace Dual Control STI 20-speed shiftlevers, Dura-Ace, 53/39 crankset, without pedals
Brakeset:	Shimano Dura-Ace dual pivot brakes, Shimano Dura-Ace STI levers
Cockpit:	Easton EC90 carbon fiber handlebars, EA70 alloy threadless stem, Easton EC70 carbon fiber seat post, Fi'zi:k Arione saddle
Sizes:	47 (650), 51, 53, 55, 57, 59, 61cm
Color:	Orange Lust/Gloss Black
Weight:	16.00 lbs.

Eclipse

By adding carbon-fiber seatstays and chainstays, we did the impossible—we improved on steel’s legendary ride quality. The Eclipse combines steel’s liveliness with carbon’s vibration-damping ride, for uncanny handling feel that’s truly balanced, front to rear. The Shimano Ultegra drivetrain, Easton EC70 carbon fork and Mavic Ksyrium SSC SL wheelset make the most of your talents, with relentlessly efficient power transfer and crisp handling that will make you smile whether you live for hardcore racing, the local club ride or solo training efforts.

Frame:	Reynolds 853 seamless chromoly, carbon fiber seat & chainstays
Fork:	Easton EC70C carbon fork, 1 1/8", carbon threadless steerer.
Wheels:	Mavic Ksyrium SSC SL wheelset (except 47cm)
Tires:	Hutchinson Fusion Long Distance, Kevlar,
Drivetrain:	Shimano Ultegra rear & front derailleurs, Ultegra Dual Control STI 18-speed (and 27-speed) shiftlevers, Ultegra, 53/39 crankset (& 52/42/30)
Brakeset:	Shimano Ultegra dual pivot brakes with Shimano Ultegra STI levers
Cockpit:	Easton EA70 alloy handlebars, EA70 alloy threadless stem, Easton EA70 alloy micro-adjust seat post, Fi:zi:k Airone saddle
Sizes:	47 (650), 49, 51, 53, 55, 57, 59, 61cm
Color:	Radium Blue/Platinum
Weight:	17.50 lbs.

Comet

A titanium-enhanced 6061 triple-butted alloy frame gives the Comet a lighter, stronger chassis, while carbon-fiber seatstays, sloping top tube geometry and stiff, oversize main tubes, give instant power delivery and razor-sharp handling. The Easton EC70 full carbon fork is deliciously smooth, but corners with telegraphed precision. With an Ultegra shifters drivetrain and Mavic Ksyrium Elite wheels, the Comet has everything a racing bike should.

Frame:	Kinesium triple butted sloping top tube main frame, carbon fiber seat stays. 7005 chainstays
Fork:	Easton EC70C carbon fork, 1 1/8", carbon threadless steerer
Wheels:	Mavic Ksyrium Elite wheelset
Tires:	Hutchinson Fusion Competition, Kevlar
Drivetrain:	Shimano Ultegra rear & front derailleurs, Ultegra Dual Control STI 18-speed (and 27-speed) shiftlevers, TruVativ Rouleur, 53/39 crankset (& 52/42/30), ISIS BB
Brakeset:	Shimano Ultegra SSC dual pivot brakes with Shimano Ultegra STI levers
Cockpit:	Easton EA70 handlebars, EA70 threadless stem, Easton EA70 micro-adjust seat post, Fi:zi'k Pave saddle
Sizes:	XS (650), S, M, L, XL
Color:	Flame Red/Gloss Black
Weight:	17.75 lbs.

Quest

They say you don't mess with success. But we did. Our best-selling road bike keeps its Reynolds 631 air-hardened main tubes and double-tapered chrome-moly stays, but we sweetened the package with Easton's full carbon EC70 fork, Ultegra shifters and derailleurs, TruVativ's ISIS-splined Elita Team crank and Easton EA50 bar and stem. With Mavic's Cosmo wheels and Hutchinson Reflex tires for rolling stock, the Quest is clearly better than ever.

Frame:	Reynolds 631 seamless air-hardened chromoly main tubes, double tapered & curved cromo stays
Fork:	Easton EC70C carbon fork, 1 1/8", carbon threadless steerer
Wheels:	Mavic Cosmos wheelset (except 47cm)
Tires:	Hutchinson Reflex, folding
Drivetrain:	Shimano Ultegra rear & front derailleurs, Ultegra STI 27-speed shiftlevers, TruVativ Elita Team crankset, ISIS BB
Brakeset:	Shimano "105", with Ultegra STI levers
Cockpit:	Easton EA50 handlebars, EA50 threadless stem, Ritchey Pro micro-adjust seat post, Fi:zi'k Pave saddle
Sizes:	47 (650), 50, 53, 55, 57, 59, 62cm
Color:	Black Chrome
Weight:	19.75 lbs.

Ventura

For '04, we gave the Ventura a super-light, triple-butt 7005 aluminum frame, borrowing the Comet's racing geometry and keen handling manners. A Shimano 105/Tiagra drivetrain with a triple-ring TruVativ crank offers plenty of low-gear climbing power without having to trade in downhill speed, which is enhanced by Ritchey's fast-rolling Deep Section Comp wheelset. The Ventura gives you serious road bike performance, at a price that doesn't require serious commitment.

Frame:	7005 Kinesis Superlight triple butted aluminum, sloping top tube design with zero-stack head tube
Fork:	Kinesis Carbon-2 carbon fiber unicrown, cromo steerer
Wheels:	Ritchey Deep Section Comp wheelset, DS Pro Rims w/ Road Comp hubs, 20F/24R bladed spokes
Tires:	Hutchinson Flash, 700 x 23C
Drivetrain:	Shimano "105" rear & Tiagra front derailleurs, Tiagra 27-speed shiftlevers, TruVativ Touro 52/42/30 crankset
Brakeset:	Tektro 423AG dual pivot calipers with Shimano Tiagra STI levers
Cockpit:	Ritchey BioMax II handlebar, Ritchey threadless stem, Ritchey Comp seat post, Selle Royale Look-In Gel saddle
Sizes:	XS (650), S, M, L, XL
Color:	Candy Blue/Gloss Black
Weight:	20.75 lbs.

Satellite

The Satellite was introduced mid-2003, and has quietly become one of the most sought-after road bikes around. We give you a taste of high-end ride quality, with the legendary ride of a Reynolds double-butt 520 steel frame, where other brands only offer tooth-rattling, straight-gauge aluminum pipes. The lightweight Kinesis carbon fork, Ritchey Biomax II handlebar and Comp stem help you make the most of the Satellite's time-tested geometry.

Frame:	Reynolds 520 double-butt chromoly main tubes, double tapered curved cromo stays, lost wax seat collar
Fork:	Kinesis Carbon-2 carbon fiber unicrown, steel steerer
Wheels:	Alex R450 aero rims, Ritchey Comp Zero Offset Road hubs, 28F/32HR, 14g stainless steel spokes
Tires:	Hutchinson Flash, 700 x 23C
Drivetrain:	Shimano Sora rear & front derailleurs, Sora 24-speed shiftlevers, TruVativ 52/42/30 alloy crankset (outer alloy)
Brakeset:	Tektro 423AG dual pivot calipers with Shimano Sora STI levers
Cockpit:	Ritchey BioMax II handlebar, Ritchey Comp threadless stem & seat post, Selle Royale Look-In Gel saddle
Sizes:	47, 50, 53, 55, 57, 59, 62cm
Color:	Polished
Weight:	23.00 lbs.

Nova

If you want one road bike that can do it all, the Nova should be your pick. Tough, resilient Reynolds 631 tubing is fused into stable-yet-crisp geometry with cantilever bosses and plenty of clearance for beefy cyclocross treads. A full brace of rack and fender eyelets, plus a triple-ring TruVativ Elita crank, offers commuter-bike or loaded-tourer versatility. And new-for-'04 upgrades including a lightweight carbon fork assure Nova is as competitive on the showroom floor as it is on the course.

Frame:	Reynolds 631 seamless air-hardened chromoly main tubes, double tapered cromó S-bend stays
Fork:	Kinesis carbon fork, alloy brake bosses, eyeletted dropouts
Wheels:	Mavic MA3 700c rims (26" for 47cm), Shimano Tiagra front & rear hubs, 14/15g double butted SS spokes
Tires:	Hutchinson Pro Series, 700 x 30C. 66tpi
Drivetrain:	Shimano "105" rear & Tiagra front derailleurs, "105" STI 27-speed shiftlevers, TruVativ Elita 52/42/30 crankset
Brakeset:	Avid Shorty 4 STI-compatible cantilevers, with "105" STI levers
Cockpit:	Ritchey BioMax II Road handlebar, Ritchey Comp threadless stem, Ritchey Comp V2 seat post, Fizik Pave saddle
Sizes:	47 (26"), 49, 51, 53, 55, 57, 60cm
Color:	Slate/Matte Black
Weight:	22.75 lbs.

Aurora

If you're looking for an affordably versatile road machine, one that's equally competent touring or helping set a personal best for a century ride, we'd like to introduce you to Aurora. Its forgiving frame angles, higher handlebar positioning and longer wheelbase assure a ride that's comfortable, yet responsive. The 11-32 big-block cassette and triple-ring crankset offers up a huge gearing range, making Aurora much easier to spin up steep climbs than most other bikes in its category.

Frame:	Reynolds 520 double-butted chromoly main tubes, double tapered cromó stays, forged dropouts w/ double eyelets
Fork:	Chromoly unicrown, canti bosses, bulge butted steerer, low rider braze-ons, double eyelets
Wheels:	Alex R450 aero rims, Ritchey Comp Zero Offset Road front & rear hubs, 36H front & rear (3X), 14g SS spokes
Tires:	Hutchinson Flash 700 x 28c
Drivetrain:	Shimano Deore rear & Sora front derailleurs, Tiagra STI 27-speed shiftlevers, TruVativ Touro crankset
Brakeset:	Tektro forged alloy cantilevers and Tiagra STI brake lever (includes in-line adjustors)
Cockpit:	Ritchey BioMax II handlebar, Ritchey Comp threadless stem & seat post, Selle Royale Look-In gel saddle
Sizes:	47, 50, 53, 55, 57, 59, 62cm
Color:	Flame Red/Platinum
Weight:	24.25 lbs.

Jamis street bikes are fast, comfortable companions for urban hops, neighborhood exploring, commuter runs and fun family rides. They're designed to get you there quickly, in comfort and style.

Our Tangier, Aragon and Citizen street bikes put a little more emphasis on comfort, with features like suspension forks and suspended seatposts, angle-adjustable handlebar stems and plush saddles.

“These aren’t just re-purposed mountain bikes...
They’re dedicated street bikes designed for comfort with speed...”

Our Coda bikes are performance-bred, road racers that have been tamed just a tad for more civilized duty. You get the response and ride of a resilient steel frame, fast-rolling wheels and the tall-in-the-saddle, see-over-traffic perspective of a mountain bike, along with mountain bike gearing for hill-climbing ease.

These aren't just re-purposed mountain bikes with skinny tires. They're dedicated street bikes designed for comfort with speed so they feel lively and full of zip.

Saddle up on a brand new Jamis street bike.

You'll discover a whole new world of fun and fitness, that begins in your very own driveway.

Blend road racing efficiency with mountain bike positioning and equipment, and you get the swift, versatile performance that's a hallmark of our Coda series. The Elite's flat handlebar and mountain bike-style shifters sit atop a bike with a road racer's crisp handling and high-speed top gearing. But the triple-ring crank and 11-32 cassette lend mountain bike-like climbing gears, with Avid's Ball Bearing disc brakes providing superb all-weather, all-conditions stopping power.

Frame:	Reynolds 631 seamless air-hardened chromoly main tubes, double tapered cromoly stays
Fork:	Kinesis carbon fork, alloy steerer, with disc brake tabs
Wheels:	Ritchey Aero Tour wheelset, Aero Pro rims, Ritchey Pro disc hubs, straight gauge SS spokes
Tires:	Hutchinson Excel, 700 x 28C
Drivetrain:	Shimano Deore XT rear & R443 front derailleurs, Shimano R660 27-speed shiftlevers, TruVativ Elita crankset
Brakeset:	Avid CPS cable actuated disc brakes with FR-1 levers
Cockpit:	Ritchey Comp handlebar, Ritchey Pro angle-adjustable threadless stem, suspension seatpost, Fi:zi'k Pave CP saddle
Sizes:	16", 17.5", 19.5", 21.5", 23"
Color:	Platinum/Gloss Black
Weight:	24.25 lbs.

The Coda Comp takes a more traditional approach to the Coda Elite's speed-with-comfort formula. It still uses a smooth-riding steel frame and carbon fork, but we opted for Avid Single Digit 5 direct-pull brakes instead of discs. A Ritchey Comp handlebar and Ritchey Pro angle-adjustable stem make it easy to assume a comfortable position on the Selle Royale Look-In Gel saddle, for all-day ride comfort.

Frame:	Reynolds 520 double-buttressed chromoly main tubes, double tapered cromoly stays, forged dropouts with eyelets
Fork:	Kinesis carbon fork, alloy brake bosses, eyeleted dropouts
Wheels:	Ritchey Aero wheelset, Aero OCR rims, Ritchey Road hubs, 32/32 2.0 gauge DT spokes
Tires:	Hutchinson Excel, 700 x 28C
Drivetrain:	Shimano Deore XT rear & R443 front derailleurs, Shimano R660 27-speed shiftlevers, TruVativ Elita crankset
Brakeset:	Avid Single Digit 5 direct pull brakes with Speed Dial 5 levers
Cockpit:	Ritchey Comp bar, Ritchey Pro angle-adjustable threadless stem, suspension seatpost, Selle Royale Gel saddle
Sizes:	16", 17.5", 19.5", 21.5", 23"
Color:	Polished
Weight:	24.75 lbs.

The Coda Sport takes speed and comfort to a new level of affordability, but pulls it off in typical Jamis style with a friendly price that doesn't cut any corners. The Coda Sport comes dressed with Shimano shifters and derailleurs (including a sweet-shifting Deore rear derailleur), a TruVativ triple-ring crank and Avid's powerful SD3 linear-pull brakes. Same easy-to-adjust Ritchey bar and stem as the Coda Comp and Elite, with a suspension post, for comfortable fun and speed.

Frame:	Reynolds 520 double-buttet chromoly main tubes, double tapered cromoly stays, forged dropouts with eyelets
Fork:	Chromoly unicrown, bulge butted steerer, low rider braze-ons, double eyelets
Wheels:	Alex ACE18 double walled rims with eyelets, Ritchey Comp road hubs, 14/15g double-buttet SS spokes
Tires:	Hutchinson Flash, 700 x 28C
Drivetrain:	Shimano Deore rear & R443 front derailleurs, Shimano R223 24-speed shiftlevers, TruVativ 52/42/30 crankset
Brakeset:	Avid SD3 alloy linear pull brakes with Shimano ST-R223 brake levers
Cockpit:	Ritchey Comp bar, Ritchey Pro angle-adjustable threadless stem, suspension seatpost, Selle Royale Freccia saddle
Sizes:	16", 17.5", 19.5", 21.5", 23"
Color:	Radium Blue/Platinum
Weight:	25.25 lbs.

Tangier

Tangier puts a capital "C" on Comfort-performance, with an SR NCX-D suspension fork that combines lightweight magnesium lowers with 2.5" of coil sprung travel and a micro-adjust suspension seatpost. An adjustable-rise stem and 40mm riser bars make things easy on your back and neck, letting you adopt a see-over-traffic upright ride position while taking advantage of the Tangier's new, lighter frame and climb-easing triple-chainring crank.

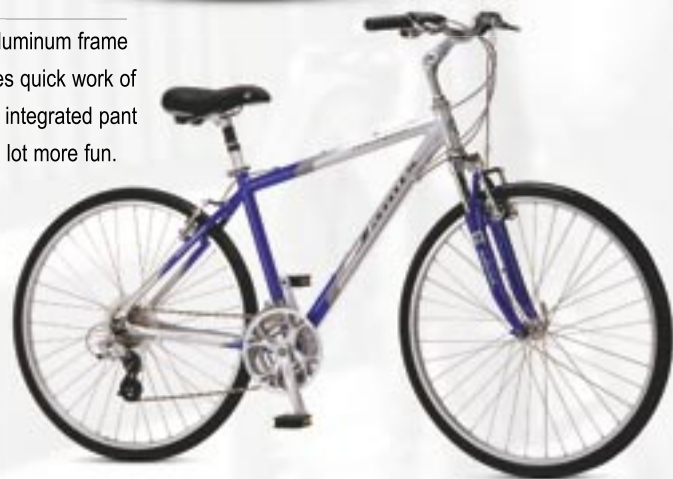

Frame:	6061 PG aluminum main tubes, replaceable derailleur hanger, double eyelets & rack mounts.
Fork:	SR NCX-D, 63mm travel, coil spring, magnesium lowers with alloy crown, external preload adjustment
Wheels:	Alex X2100 double wall rims, Shimano RM40 hubs, 14g stainless steel spokes
Tires:	CST 700 x 38C with inverted "lockjaw" tread & puncture resistant casing
Drivetrain:	Shimano Deore rear & front derailleurs, Shimano ALivio 24-speed RapidFire shifters, TruVativ 5D crankset
Brakeset:	Tektro alloy direct pull brakes w/ front power modulator, Tektro Tintera forged alloy levers w/ comfort insert
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, micro-adjust suspension seatpost, Jamis Comfort saddle
Sizes:	14.5", 16.5", 18.5", 20.5", 22"
Color:	Dark Silver/Gloss Black (Men's & Ladies'), Ball Burnished (Men's Only), Platinum/Bearl Blue (Ladies' Only)
Weight:	27.50 lbs.

The Aragon may be the most efficiently fun form of in-town transportation yet devised. Its lightweight aluminum frame features a full brace of mounts for commute - and errand-friendly racks and fenders, gearing that makes quick work of uphill stretches and puncture-resistant tires. New street comfort pedals and the Shimano crankset with integrated pant guard make Aragon as friendly for riding in street clothes as the local subway, but make in-town trips a lot more fun.

Frame:	6061 PG aluminum main tubes, replaceable derailleur hanger, double eyelets & rack mounts
Fork:	INSYNC Odessa AC 178, 63mm travel, 1-pc aluminum sliders, preload adjustable
Wheels:	Weinmann alloy 700c rims, Formula sealed front & freehub rear, 14g stainless steel spokes
Tires:	CST 700 x 38C with inverted "lockjaw" tread & puncture resistant casing
Drivetrain:	Shimano Acera rear & Tourney front derailleurs, Shimano Acera EZ-Fire 24-speed shifters, Shimano C203 crankset
Brakeset:	Tektro alloy direct pull brakes w/ front power modulator, Shimano Acera forged alloy levers
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, micro-adjust suspension seatpost, Jamis Comfort saddle
Sizes:	Mens: 14.5", 16.5", 18.5", 20.5", 22" Ladies: 14.5", 17.5"
Color:	Platinum/Royal Blue (Men's & Ladies'), Platinum/Candy Red (Men's & Ladies')
Weight:	29.25 lbs.

The Citizen steps it up for '04 by moving up to the Aragon's lightweight aluminum frame, an InSync Odessa suspension fork and 40mm riser handlebar for more optimized comfort and sit-up, see-over-traffic utility. Road bike-size 700c rims and 38mm-wide tires glide smoothly over pavement. It's a sensible fitness/comfort bike with the toughness and versatility to cut it as a commuter bike and short-haul errand runner.

Frame:	6061 PG aluminum main tubes, replaceable derailleur hanger, double eyelets & rack mounts
Fork:	INSYNC Odessa CR 170, 63mm travel, 1-pc aluminum sliders, coil spring w/ elastomer
Wheels:	Alloy 700c rims, alloy QR hubs front & rear, 14g stainless steel spokes
Tires:	Kenda EuroTek 700 x 38C, blackwall
Drivetrain:	Shimano Tourney Megarange derailleurs, SRAM MRX-204 21-speed GripShift, SR NEX200 48/38/28 crankset
Brakeset:	Alloy direct pull brakes; Tektro Tenera forged alloy levers w/ comfort insert.
Cockpit:	Sport Comfort 40mm rise bar, Adjustable-rise alloy stem, suspension seatpost, Jamis Comfort saddle
Sizes:	Mens: 14.5", 16.5", 18.5", 20.5", 22" Ladies: 14.5", 17.5"
Color:	Deep Blue (Men's Only), Platinum (Men's & Ladies'), Pearl Blue (Ladies' Only)
Weight:	29.50 lbs.

If you want easy-handling road manners for casual rides and neighborhood cruising these are your bikes. Our sport comfort bikes are fun, affordable and user-friendly two-wheelers that give you minimal hassle, maximum joy.

These may be a little less fast than 700c road wheels, but they do lower your center of gravity just a touch, to improve slow-speed handling, and their wider tires offer more shock absorption and sure-footed stability.

“Explorer series bikes are just like SUV’s... tough durable street bikes with off-road capability.”

Our Explorer series bikes are just like sport utility vehicles—tough, durable street bikes with off-road capability. They offer many of the same features as our street comfort hybrid bikes -- like angle-adjustable stems with hi-rise handlebars for a comfortable upright riding position, suspension forks and seat posts to smooth out bumps, and broader-based saddles with more padding for (?) -- but use smaller 26-inch wheels.

Their lightweight aluminum frames are designed to be easy to pedal, but still be every bit as stout and strong as our Durango and Cross Country mountain bikes, with geometry that’s not just an ATB clone dressed up in comfort clothes. So if you’re thinking about getting back into cycling, and are looking for a feel-good alternative to a bent-over road bike or a tooth-chattering mountain bike, Explorer has your name all over it.

Explorer 4.0

We've upped the comfort factor for '04 Explorers, while keeping the same sporty feel that have made them perennial favorites. A new-for-'04 taller head tube provides a more upright, back-friendly riding position. SRAM's simplified Single-Side shifter lets you manipulate all 24 speeds with just one hand, and the RockShox Metro fork and matching GPS suspension seatpost enhance the smooth-rolling feel of the puncture-resistant tires for worry-free adventures.

Frame:	6061 PG aluminum main tubes and S-bend stays, replaceable derailleur hanger
Fork:	Rock Shox Metro, 50mm travel, adjustable preload
Wheels:	Weinmann 520 black alloy, Formula alloy front & SRAM internal 3-speed rear hubs, 14g stainless steel spokes
Tires:	Kenda Komfort w/ K-Shield casing, 26 x 1.95", blackwall
Drivetrain:	SRAM Dual Drive rear derailleur, SRAM 24-speed Single-Side shifter, SRAM Dual Drive 33t crankset
Brakeset:	Tektro alloy direct pull brakes with front power modulator; Tektro Tenera forged alloy levers with comfort insert
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, Rock Shox suspension seatpost, Jamis Sport Comfort saddle
Sizes:	Mens: 13.5", 15.5", 18", 21" Ladies: 14.5", 17.5"
Color:	Silverflake/Starbeam Red (Men's & Ladies') or Ball Burnished (Men's Only)
Weight:	31.75 lbs.

Explorer 3.0

The Explorer 3.0 is the perfect urban bike, whether you're cruising your local neighborhood for fitness, or using your two-wheeler to cut across town. Same elevated head tube as the Explorer 4.0, same puncture-resistant tires and RockShox Metro fork, for that smooth, worry-free ride, only with a more budget-friendly price tag.

Frame:	6061 PG aluminum main tubes and S-bend stays, replaceable derailleur hanger
Fork:	Rock Shox, 50mm travel, adjustable preload
Wheels:	Weinmann 520 black alloy, Formula sealed front & freehub rear, 14g stainless steel spokes
Tires:	Kenda Komfort with K-Shield casing, 26 x 1.95", blackwall
Drivetrain:	Shimano Acera rear & front derailleurs, Shimano Acera EF-29 Easyfire 24-speed shifters, RPM crankset
Brakeset:	Tektro alloy direct pull brakes with front power modulator; Shimano Acera forged alloy levers
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, alloy suspension seatpost, Jamis Sport Comfort saddle
Sizes:	Mens: 13.5", 15.5", 18", 21" Ladies: 14.5", 17.5"
Color:	Deep Blue/Ash Silver (Men's & Ladies'), Silverflake/Metallic Black (Men's Only), Pearl/Pearl Blue (Ladies' Only)
Weight:	32.25 lbs.

We moved the Explorer 2.0 up a notch or two for '04, adding an SR M3000 suspension fork and more high-speed gearing with a new crankset. The 21-speed Shimano drivetrain is easy to direct via the Revo twist shifters, while the forged alloy brake levers with comfort inserts give your fingers easy two-finger stopping power. The elevated head tube, 40mm-rise handlebar and adjustable-rise stem is kind to your back and neck and lets you enjoy the view from the suspension post-mounted saddle as you glide along.

Frame:	6061 PG aluminum main tubes and S-bend stays, replaceable derailleur hanger
Fork:	SR M3000, 50mm travel, alloy crown, coil spring, full boot
Wheels:	Weinmann 520 black alloy rims, Formula sealed front & rear hubs, 14g stainless steel spokes
Tires:	Kenda Kross Plus 26 x 1.95", blackwall
Drivetrain:	Shimano Altus rear & front derailleurs, Shimano Revo 21-speed shifters, RPM 48/38/28 crankset
Brakeset:	Tektro alloy direct pull brakes with power modulator; Tektro Tenera forged alloy levers with comfort insert
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, alloy suspension seat post, Jamis Sport Comfort saddle
Sizes:	Mens: 13.5", 15.5", 18", 21" Ladies: 14.5", 17.5"
Color:	Metallic Black/Silverflake (Men's & Ladies'), Platinum/Dark Silver (Men's Only), Platinum/Deep Blue (Ladies' Only)
Weight:	32.50 lbs.

If what you crave is a simpler life, the Explorer 1.0 was designed with you in mind. We upgraded for '04 to the same lightweight aluminum frame as the rest of the Explorer line, but kept things simple (and light!) by eliminating the weight and complexity of a suspension fork. We kit it out with a suspension seatpost for ride comfort, SRAM's no-brainer GripShift shifters and non-slip Sport Comfort pedals. It's as easy to ride as it is easy on your wallet.

Frame:	6061 PG aluminum main tubes and S-bend stays, replaceable derailleur hanger
Fork:	Hi-Tensile steel unicrown, forged dropouts with eyelets
Wheels:	Alloy 26 x 1.5" with Formula alloy sealed QR front & rear hubs, 14g stainless steel spokes
Tires:	Kenda Komfort, 26 x 1.95", blackwall
Drivetrain:	Shimano Tourney TX-50 derailleurs, SRAM MRX-204 21-speed GripShift, SR NEX-100 alloy crankset
Brakeset:	Alloy direct pull brakes; Tektro Tenera forged alloy levers w/ comfort insert
Cockpit:	Comfort 40mm rise bar, Adjustable-rise alloy stem, Non-slip suspension seat post, Jamis Sport Comfort saddle
Sizes:	Mens: 13.5", 15.5", 18", 21" Ladies: 14.5", 17.5"
Color:	Deep Blue (Men's & Ladies'), Ash Silver (Men's Only), Pearl (Ladies' Only)
Weight:	29.50 lbs.

Our Boss and Earth Cruisers capture the fun, carefree spirit of classic balloon-tire cruisers, but in a modern package. While some of the other guys' cruisers are genuine 1950's classics, their heavy steel frames and klunky parts make them much more fun to look at than they are to ride.

look classic, but provide a far more supple ride, and spin on lightweight, rustproof aluminum rims instead of hefty chrome steel that will eventually darken with rust. We offer basic single-speeds, along with four- and seven-speed drivetrains that provide pedaling ease with minimal complexity.

“Newfound levels of stylish comfort... Whether you're after a simple sidewalk cruiser, or just want a hip way to get around...”

Like yesterday's nostalgic bikes, our Cruisers are fun, low-maintenance creations that emphasize the simple joys of riding. But we use lightweight aluminum frames, comfort grips and ergonomically designed saddles to make them ride and pedal with more ease and comfort than old school machines. Our modern whitewalls

Factor in our luxuriously plush saddles, swept-back handlebars and upright, see-all-around-you riding posture and you'll revel in newfound levels of stylish comfort.

Whether you're after a simple sidewalk cruiser, or just want a hip way to get around town or campus, there's a Jamis Cruiser that fits the bill.

Earth Cruiser 7

The Earth Cruiser 7 is like the ultimate newsboy's bike, with swept-back handlebar, a plush Earth Cruiser saddle and RockShox Metro suspension fork to supplement the relaxed ride of the big whitewall tires and lightweight aluminum frame. An easy-to-operate twist shifter makes gear selection easy, while the low maintenance 7-speed internally geared hub delivers a broad range of hill-taming gears.

Frame:	Lightweight 7005 aluminum frame
Fork:	Rock Shox Metro suspension fork
Wheels:	Shimano Nexus 7-speed internally geared hub, alloy front hub, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires
Drivetrain:	Alloy cotterless crank arm with satin finish steel chainring
Brakeset:	Shimano Inter-M rear brake and Tektro alloy linear pull
Cockpit:	Jamis cruiser handlebar, sealed headset, and adjustable alloy stem, Earth Cruiser saddle and alloy micro-adjust seat post
Sizes:	Men's: Medium (18.5") & Large (21.5") Ladies: X-Small (15.5") & Small (17.5")
Color:	Gloss Black/Silver (Men's & Ladies') or Radium Blue/Silver (Men's & Ladies')

Earth Cruiser 4

The Earth Cruiser 4 is so fun and comfortable to pedal it hardly feels like good exercise. Four twist-shifting internal gears and a back-pedaling coaster brake make it easy to ride and easy to care for. Add the same alloy frame, comfy saddle, and smooth-rolling wheels from the EC7, and you get the best of both worlds—multi-speed flexibility and single-speed coaster brake simplicity.

Frame:	Lightweight 7005 aluminum frame
Fork:	Unicrown, hi-tensile steel fork
Wheels:	Shimano Nexus 4-speed internally geared hub, alloy front hub, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires
Drivetrain:	Alloy cotterless crank arm w/ satin finish steel chainring
Brakeset:	Shimano coaster brake
Cockpit:	Jamis cruiser handlebar, sealed headset, adjustable alloy stem, Earth Cruiser saddle, alloy micro-adjust seat post
Sizes:	Men's: Medium (18.5") & Large (21.5") Ladies': X-Small (15.5") & Small (17.5")
Color:	Dark Silver/Silver (Men's & Ladies'), Radium Red/Black (Men's Only), Watermelon/Pearl White (Ladies' Only)

Earth Cruiser 1

The Earth Cruiser 1 is a modern update of the classic beach cruiser. Its low-maintenance, single-speed drivetrain and coaster brake make it easy to ride, while the lightweight alloy frame, adjustable-rise stem, and plush Earth Cruiser saddle make it more stylish and comfortable than the cruisers you remember from childhood.

Frame:	Lightweight 7005 aluminum frame
Fork:	Unicrown, hi-tensile steel fork
Wheels:	Alloy front hub, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires
Drivetrain:	Alloy cotterless crank arm with satin finish steel chainring
Brakeset:	Shimano coaster brake
Cockpit:	Jamis cruiser handlebar, sealed headset, adjustable alloy stem, Earth Cruiser saddle, alloy micro-adjust seatpost
Sizes:	Men's: Medium (18.5") & Large (21.5") Ladies': X-Small (15.5") & Small (17.5")
Color:	Radium Blue/Silver (Men's & Ladies'), Dark Silver/Silver (Men's & Ladies'), Radium Red/Black (Men's Only) Watermelon/White (Ladies' Only)

Earth Cruiser 2

The Earth Cruiser 2 is as basic and elemental as a Jamis Cruiser gets, with its single-speed drivetrain and coaster brake. But its no-slip pedals, swept-back handlebar and Spectro comfort grips offer modern comfort without disrupting the EC2's cool lines. It's a simple machine, light on the wallet but loaded with good looks and big grins.

Frame:	Hi-tensile steel frame
Fork:	Unicrown, hi-tensile steel fork
Wheels:	Alloy front hub, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires
Drivetrain:	Hi-polished, forged crank arm with chrome plated steel chainring
Brakeset:	Shimano coaster brake
Cockpit:	Jamis cruiser handlebar, sealed headset, alloy stem, alloy kickstand, Earth Cruiser saddle, alloy seat post
Sizes:	Men's: Medium (18.5") & Large (21.5") Ladies': X-Small (15.5") & Small (17.5")
Color:	Radium Blue/Silver (Men's & Ladies'), Radium Red/Black (Men's & Ladies'), Gloss Black/Silver (Men's Only) Mint/Pearl White (Ladies' Only)

Boss Cruiser 7

Take advantage of the lightweight aluminum frame and kick back on the Boss. The seven easy-to-shift gears, wide whitewall tires, and swept-back handlebar give this cruiser a big-grinned, smooth-rolling ride that's perfect for neighborhood excursions, bike trail exploration or cruising the boardwalk.

Frame:	Lightweight 7005 aluminum frame
Fork:	Boss tubular unicrown with leading axle dropout
Wheels:	Alloy hubs, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires
Drivetrain:	Shimano Tourney 7-speed Mega-Range, GripShift MRX shifter, Alloy cotterless crank w/ satin finish steel chainring
Brakeset:	Tektro forged alloy linear pull brakes & brake levers
Cockpit:	Jamis cruiser handlebar, sealed headset, adjustable alloy stem, Plush Cheeks saddle and alloy seat post
Sizes:	Men's: 19", 21", 23", 25" Ladies': 17.5", 19"
Color:	Men's: Gloss Black, Polished, Radium Blue Ladies': Pearl White, Radium Blue, Watermelon

Boss Cruiser Coaster

If you're after a simple, leave-your-cares-behind ride, the Boss Cruiser Coaster is just what the doctor ordered. A lightweight aluminum chassis that's tough and rust-free makes for years of easy, trouble-free pedaling. A big double-sprung Cheeks saddle, angle adjustable stem and smooth-rolling whitewall tires make the Boss Cruiser Coaster as comfy as it is stylish.

Frame:	Lightweight 7005 aluminum frame
Fork:	Boss tubular unicrown with leading axle dropout
Wheels:	Alloy front hub, alloy rims, stainless steel spokes
Tires:	Smooth rolling whitewall tires.
Drivetrain:	Alloy cotterless crank arm with satin finish steel chainring
Brakeset:	Shimano coaster brake
Cockpit:	Jamis cruiser handlebar, sealed headset, and adjustable alloy stem, Cheeks saddle and alloy seat post
Sizes:	Men's: 19", 21", 23", 25" Ladies': 17.5", 19"
Color:	Men's: Dark Silver, Radium Blue, Red Hot Ladies': Pearl White, Radium Blue, Watermelon

Taxi

Our Taxi is the number-one choice for many Atlantic coast and Gulf shore rental fleets because its lightweight aluminum frame and corrosion-resistant components hold up under salty seaside conditions. But you'll love its timelessly cool looks, simple single speed gearing and sofa-sized saddle, which make every ride feel like a walk on the beach.

Frame:	Lightweight 7005 aluminum frame
Fork:	Boss tubular unicrown with leading axle dropout
Wheels:	Alloy front hub, alloy rims, heavy duty 12g stainless steel spokes
Tires:	Smooth rolling blackwall tires
Drivetrain:	Alloy cotterless crank arm and sealed cartridge bottom bracket
Brakeset:	Shimano coaster brake
Cockpit:	Jamis cruiser handlebar, sealed headset and alloy stem, Cheeks saddle with quick release alloy seat post
Sizes:	Men's: 19", 21", 23" Ladies': 15.5" (with 24" wheel), 17.5" (w/ 26" wheel) Girl's: 11" (w/ 20" wheel)
Color:	Men's & Ladies': Black

It's always a battle between what you want, and what they want. You want them to be safe, they want thrills. You want to get them something sensible. They want something exciting. Our youth bikes provide the fun and excitement along with the safe and sensible.

We pick parts that are proportioned for kid-size bodies, so they're easy to control. Items like brake levers for smaller hands, scaled-down shifters and properly sized cranks help build skills and smiles, while making cycling fun.

“You’ll rest easy knowing your kids are riding bikes that are safe, tough and built to last.”

Our youth bikes are engineered for safety, from the ground up. Our frames feature low standover clearance that makes getting on and off simple and safe, with stable handling that boosts their confidence as they learn riding skills.

But that's all stuff the kids don't see, and won't pay attention to. They'll just see exciting graphics, fun rides and machines that look just like the ones ridden by big kids. But you'll rest easy knowing they're riding bikes that are safe, tough and built to last.

Lurch 2.0

The Lurch 2.0 is a trail/jump bike built to take any tech trick or burly madness you can step up to. The sturdy 4130 Trimoly steel frame features tapered, ovalized top and down tubes with oversize stays and a bomber chrome-moly steel fork so it'll hold up when you throw down. An SST Oryg cable detangler and 48-spoke/oversize-axle wheels make this Lurch ready to rule any vert ramp.

Frame:	4130 Trimoly main frame, tapered/oval top & down tubes, oversized stays, 1 1/8" head tube, big plate dropout
Fork:	Cromoly with butted steerer, 1 1/8" threadless, leading axle dropout.
Wheels:	Alex 48H alloy rims, alloy large flange 48H front & rear hubs with 14mm axles, 14g nickel plated spokes
Tires:	Maxxis Holy Roller 20 x 2.20", blackwall
Drivetrain:	Tubular Chromoly crank with 44T alloy chainring & CNC"ed teeth, KMC Z-510 heavy duty chain
Brakeset:	Tektro alloy U-brake rear, Tektro alloy lever, SST Oryg detangler
Cockpit:	Threadless alloy stem, 635 x 195 bars, micro-adjust alloy seatpost, alloy seat clamp, Trail saddle w/ 8mm rails
Sizes:	10"
Color:	Matte Black

Lurch 1.0

We packed the Lurch 1.0 with all the features kids want, but held the budget volume down to a level that won't deafen parents. The heavy-duty steel frame's oversize tubeset and burly chrome-moly steel fork are built to last, with aggressive trail geometry and an SST Oryg cable detangler for vert-style tricks and the toughness to stick the landings. The Lurch 1.0 is launch-ready, with the capability to follow through.

Frame:	Heavy Duty hi-tensile frame, tapered/oval top & down tubes, oversized stays, big plate dropout
Fork:	Cromoly steerer, 1 1/8" threadless, leading axle dropout
Wheels:	Alex 48H alloy rims, alloy large flange 48H front & rear hubs with 14mm axles, 14g nickel plated spokes
Tires:	CST Comp III 20 x 2.2125", blackwall
Drivetrain:	Forged chromoly 1-pc 175mm crank with 44T chainring, KMC Z-510 heavy duty chain
Brakeset:	Alloy U-brake rear, alloy lever, SST Oryg detangler
Cockpit:	Threadless alloy stem, 600 x 150 bars, micro-adjust alloy seatpost, alloy seat clamp, Trail saddle with 8mm rails
Sizes:	10"
Color:	Primal Grey

Ranger SX 2.4

Most youth bikes are overgrown kids’ machines, but that’s not how we do it at Jamis. We took our easy-to-ride Ranger performance bike and reconfigured it, while remaining true to its original speed-over-any-terrain mission. It’s the same robust, lightweight frame as the full-size Ranger, but scaled down for 24-inch wheels and paired with SR’s new M3000 50mm-travel suspension fork.

Frame:	6061 PG aluminum, tapered/oval top & down tubes, oversized stays
Fork:	SR M3000, 50mm travel, alloy crown, coil spring, full boot
Wheels:	Alloy 24 x 1.5", with QR front & rear hubs, 14g nickel plated spokes
Tires:	CST ATB, 24" x 1.95", blackwalls
Drivetrain:	Shimano Tourney TX30 rear & TZ30 front derailleurs, SRAM MRX-204 21-speed GripShift, SR 4-arm crankset
Brakeset:	Alloy direct pull brakes and levers
Cockpit:	Threadless 60mm "shorty" stem, low-rise XC handlebar, micro-adjust alloy seatpost, alloy seat clamp
Sizes:	13.5"
Color:	Flame Red or Gloss Black

Capri 2.4

The Capri was designed to give girls their own bike, instead of the usual boys'-bike-painted-pink. The lightweight aluminum frame features a low-standover Y-style design, but it’s tough enough for knock-around fun. A full complement of 21 speeds makes this a seriously capable dirt bike with full-scale performance, and we back it up with direct-pull brakes that are safe and reliable.

Frame:	Lightweight aluminum, low stand-over Y-style frame design, with alloy kickstand
Fork:	Unicrown with oversized blades
Wheels:	Alloy rims, chrome plated front & rear hubs, 14g nickel plated spokes
Tires:	CST ATB 24 x 1.95", blackwall
Drivetrain:	Shimano TX30 rear & C50 front derailleurs, SRAM MRX-204 21-speed Grip Shift, Alloy crankset
Brakeset:	Alloy direct pull brakes with 64mm shoes and full alloy brake levers.
Cockpit:	Angle adjustable alloy stem, 130mm quill, comfort 30mm rise handlebar, alloy seat clamp, Capri comfort saddle
Sizes:	13.5"
Color:	Pearl Magenta or Pearl Yellow

Fester 2.0

We took the friendly geometry and design from last year's Fester 2.0 steel frame, but built it with lightweight aluminum tubing to significantly pare weight, making this bike even easier to ride and control. A Shimano rear derailleur and Grip Shift 6-speed twist-shifter make this more of a serious, miniature mountain bike than typical 20-inch kids' bikes. It's the childhood bike you wish you had.

Frame:	7005 aluminum frame, tapered/oval top & down tubes, oversized stays
Fork:	Heavy Duty 28.6 blades, 800mm radius, 1 1/8" threadless hi-ten steerer
Wheels:	Alloy rims, black anodized, heavy duty front & rear hubs, 14g nickel plated spokes
Tires:	CST ATB 20 x 2.0", blackwall
Drivetrain:	Shimano TX-30 rear derailleur, SRAM 6-speed Gripshift, Alloy crankset w/ double-sided chainguard
Brakeset:	Alloy direct pull brakes with 64mm shoes and full alloy brake levers
Cockpit:	Threadless 60mm "shorty" stem, low-rise XC handlebar, micro-adjust alloy seatpost, alloy seat clamp
Sizes:	10"
Color:	Ano Silver

Capri 2.0

The Capri 2.0 is the perfect bike when she's ready to move on from her single-speed coaster brake to multi-speeds and hand brakes. This year's model features a new, lightweight aluminum frame and an angle-adjustable stem that makes the Capri readily adaptable for growing youngsters. Short-reach brake levers make stopping easy on small hands, and the simple twist shifter makes running through all 6 speeds a cakewalk.

Frame:	Lightweight aluminum, low stand-over Y-style frame design, with alloy kickstand
Fork:	Unicrown with oversized blades.
Wheels:	Alloy rims, chrome plated front & rear hubs, 14g nickel plated spokes
Tires:	CST ATB 20 x 1.95", blackwall
Drivetrain:	Shimano TX30 rear derailleur, SRAM 6-speed Gripshift, Alloy crankset w/ double-sided chainguard
Brakeset:	Alloy direct pull brakes with 64mm shoes and full alloy brake levers
Cockpit:	Angle adjustable alloy stem, 130mm quill, comfort 30mm rise handlebar, alloy seat clamp, Capri comfort saddle
Sizes:	10"
Color:	Pearl Blue

Laser 2.0

The Laser's new-for-'04 Fester-style BMX frame is guaranteed to make your little kid feel like a big one. The alloy linear-pull brake and coaster brake combination gives kids a chance to gain big boy hand-braking confidence safely. All new graphics make the Laser 2.0 look dangerously cool (only you'll know it's safe and reliable).

Frame:	MX Hi-Ten tubing, with kickstand, bi-axial oval top & down tubes, with kickstand
Fork:	Tubular unicrown, MX Hi-Ten 28.6 straight blades, leading axle dropout
Wheels:	Alloy 36H rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST BMX 20 x 1.95", blackwall
Drivetrain:	Cold forged 1-pc crank, 4", 36T compact disc chainwheel, 18T rear cog
Brakeset:	Alloy direct pull rear with full alloy brake lever, and rear coaster brake
Cockpit:	Alloy MX stem, 150mm quill, BMX bars with safety pad, Junior BMX padded saddle
Sizes:	10"
Color:	Chromium or Gloss Black

The Starlite is a fun, whimsically styled two-wheeler for neighborhood exploring and family fun rides. It uses a coaster brake and hand brake, making it an ideal transitional bike from training wheel-equipped single-speeds. You'll see it as safe and sensible. She'll see it as one dreamy ride.

Frame:	Low stand-over Y-style frame design, MX Hi-Ten tubing, with kickstand
Fork:	Tubular unicrown, MX Hi-Ten 28.6 straight blades, leading axle dropout
Wheels:	Alloy rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST Street 20 x 1.75", white
Drivetrain:	Cold forged 1-pc crank, 4", 36T compact disc chainwheel, 18T rear cog
Brakeset:	Alloy direct pull rear with full alloy brake lever, and rear coaster brake
Cockpit:	Alloy MX stem, 150mm quill, Comfort MX bars with safety pad, Girls padded comfort saddle with springs
Sizes:	10"
Color:	Pearl Blue or Pearl Pink

Starlite 2.0

Laser 1.6

The Laser 1.6 takes the same tough, rugged construction of the Laser 2.0 and scales it down for 16-inch wheels. It's a simpler bike for first-time riders, with a rear coaster brake, removable training wheels and handlebar safety pad. Add hot, new Laser graphics and you have a bike that'll make kids want to learn to ride.

Frame:	MX Hi-Ten tubing, bi-axial oval top & down tubes, with training wheels
Fork:	Tubular unicrown, MX Hi-Ten 28.6 straight blades, leading axle dropout
Wheels:	CP 28H rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST BMX 16 x 1.75", blackwall
Drivetrain:	Cold forged 1-pc crank, 4", 36T compact disc chainwheel, 18T rear cog
Brakeset:	KT rear coaster brake.
Cockpit:	Alloy MX stem, 150mm quill, BMX bars with safety pad, Junior BMX padded saddle
Sizes:	8"
Color:	Flame Red or Race Blue

Miss Daisy 1.6

The Miss Daisy is a perfect first-time bike...an instant smile-maker. The newly designed frame with curved top and down tubes offers low standover that's friendly for growing bodies, with stable non-slip pedals and an easy-to-use coaster brake. We kit it out with removable training wheels and a handlebar pad for safety, then dress it up to make Miss Daisy a bike every girl wants to ride.

Frame:	Low stand-over Y-style frame design, MX Hi-Ten tubing, with training wheels
Fork:	Tubular unicrown, MX Hi-Ten 28.6 straight blades, leading axle dropout
Wheels:	CP rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST Street 16 x 1.75", white
Drivetrain:	Cold forged 1-pc crank, 4", 36T compact disc chainwheel, 18T rear cog
Brakeset:	KT rear coaster brake
Cockpit:	Alloy MX stem, 150mm quill, Comfort MX bars with safety pad, Girls padded comfort saddle with springs
Sizes:	8"
Color:	Pearl Pink or Metallic Grape

Hot Rod 1.2

The Hot Rod takes the look and feel of a favorite toy car, and reshapes it into something kids want to ride. With a handlebar safety pad, fenders and a full-size chainguard to keep clothing and toes away from moving parts, the Hot Rod is as safe as it is fun.

Frame:	Low stand-over Y-style frame design, MX Hi-Ten tubing, with training wheels and fenders
Fork:	Tubular unicrown, MX Hi-Ten 25.4 straight blades, leading axle dropout
Wheels:	CP 16H rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST Street 12 x 2.125", blackwall
Drivetrain:	Cold forged 1-pc crank, 3", 28T compact disc chainwheel, 16T rear cog
Brakeset:	KT rear coaster brake
Cockpit:	Alloy stem with removeable cap & allen stem bolt, BMX bars with safety pad, Junior BMX padded saddle
Sizes:	8"
Color:	Race Blue

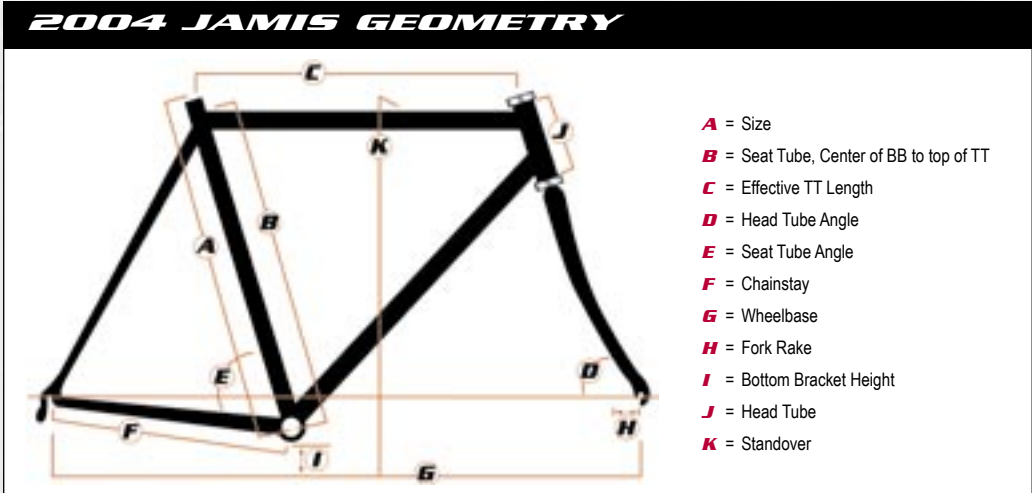

Lady Bug 1.2

They just don't look more appealing, or friendlier, than the Lady Bug. The low standover frame makes it an easy bike to mount and dismount, with fenders and a full-size chainguard to keep fingers and toes out of moving parts. The simple coaster brake and stable training wheels help make learning to ride easy, safe and fun.

Frame:	Low stand-over Y-style frame design, MX Hi-Ten tubing, with training wheels and fenders
Fork:	Tubular unicrown, MX Hi-Ten 25.4 straight blades, leading axle dropout
Wheels:	CP 16H rims, heavy duty chrome plated front & KT coaster brake rear hubs, 14g nickel plated spokes
Tires:	CST Street 12 x 2.125", white
Drivetrain:	Cold forged 1-pc crank, 3", 28T compact disc chainwheel, 16T rear cog, BMX high-impact resin pedals
Brakeset:	KT rear coaster brake
Cockpit:	Alloy stem with removeable cap & allen stem bolt, Comfort MX bars with safety pad, Lil' Girls comfort saddle
Sizes:	8"
Color:	Pearl Pink

All Jamis manufactured frames and forks feature a limited warranty against defects; and a one-year warranty on parts.
See your owner's manual for complete details. All bicycles are equipped with full CSPC equipment.

All specifications are subject to change without notice.
